

**ALPINE
ATOMIC
WINTER 2010**

A PASSION FOR SKIING, A PASSION FOR MAKING SKIS

WE AT ATOMIC HAVE BEEN MANUFACTURING SKIS SINCE 1955. AND BECAUSE WE HAVE ALWAYS BEEN AT HOME IN THE HEART OF THE ALPS, IT MEANS SO MUCH MORE TO US THAN JUST BUSINESS. WE ARE FANATICAL ABOUT SKIING, AND EACH OF US SPENDS ALMOST AS MUCH TIME ON SKIS AS WE DO WORKING WITH SKIS.

WHICH MEANS THAT EACH OF OUR PRODUCTS IS MORE THAN JUST THE SUM OF ITS COMPONENT PARTS. OUR PRODUCTS ARE ALSO THE EMBODIMENT OF OUR PASSION FOR SKIING.

THEY SYMBOLISE THE AMBITION WHICH DRIVES US TO QUESTION THE TRIED AND TESTED WITH NEW APPROACHES, NEW IDEAS AND NEW DESIGNS. THEY ARE BASED ON THE EXPERIENCE OF OVER 50 YEARS IN THE SKI INDUSTRY. ON OUR HUMBLENESS BEFORE NATURE AND OUR SENSE OF RESPONSIBILITY FOR TREATING IT WITH THE UTMOST RESPECT.

AND LAST BUT NOT LEAST, EACH OF OUR PRODUCTS EMBODIES THE SPIRIT OF THE MOST SUCCESSFUL BRAND IN SKI RACING: THE ATOMIC SPIRIT.

ALPINE SKIING 2010

SKIING IS ...

‘SKIING MEANS SPEED, POWER AND DYNAMIC. TRYING TO BRING THESE COMPONENTS IN SYNC MAKES SKIING SO ATTRACTIVE FOR ME. SKIING IS ALSO MY DEFINITION OF FREEDOM.’ **BENJAMIN RAICH**

‘SKIING FIRES ME UP ON LIFE! IT’S ABOUT FREEDOM, FLOW, SPEED, EXPLORING, SELF EXPRESSION AND MAKES MY HEART THUMP.’ **DARON RAHLVES**

‘IT’S ALL FUN, I GET TO BE OUTDOORS, DOING SOMETHING I REALLY ENJOY AND SOMETHING I’M REALLY GOOD AT. AND ALSO SKIING IS DANGEROUS AND I GET A KICK OUT OF IT!’ **JENS BYGGMARK**

‘THE RUSH OF ADRENALIN AND HAPPINESS YOU GET OUT OF SKIING IS BETTER THEN ANY FEELING OUT THERE. YOU FORGET ABOUT ALL STRESSES AND YOU JUST LIVE IN THAT MOMENT.’ **CHRIS BENCHETLER**

‘SKIING IS A WAY FOR ME TO FORGET ABOUT ANYTHING ELSE THAT IS GOING ON AROUND ME, A COMPLETE RELAXATION FROM THE PRESSURES OF THE WORLD. IT’S ALSO A WAY FOR ME TO EXPRESS MYSELF IN A WAY I WANT TO. I LOVE THE FREEDOM INVOLVED. THE SATISFACTION FELT AFTER LANDING A NEW TRICK IS THE ULTIMATE FEELING FOR ME.’ **JOSSI WELLS**

‘SKIING IS MY LIFE STYLE. I LIVE MY LIFE AS A SKIER AND AN ATHLETE. THIS IS THE TIME IN MY LIFE WHEN I HAVE THE CHANCE TO DO THAT, AND I WANNA MAKE THE MOST OUT OF IT.’

D2 DOUBLEDECK

THE DOUBLEDECK EFFECT:
GLIDE MORE SMOOTHLY, TURN MORE EASILY

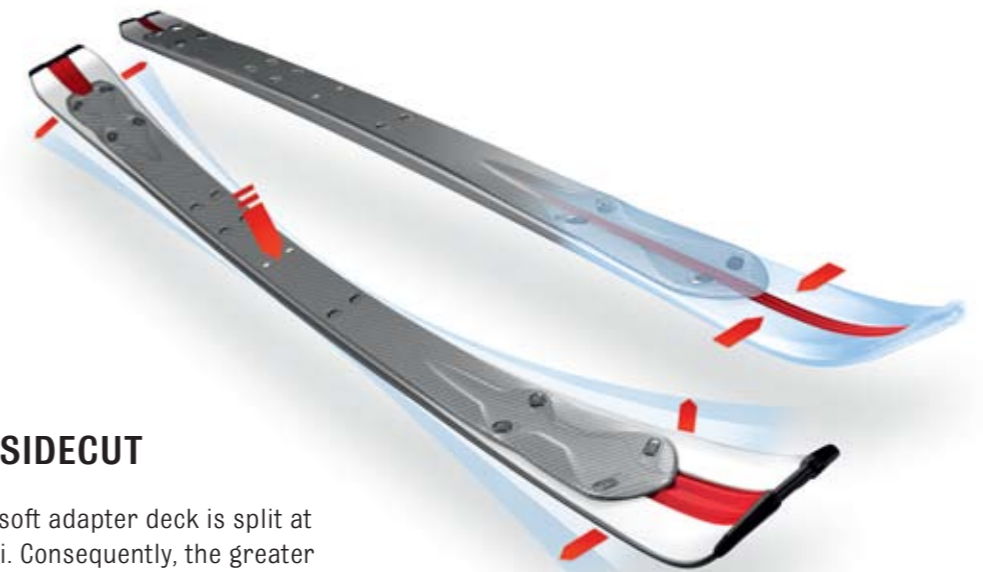

UNTIL D2 DOUBLEDECK ANY CHOICE OF SKI WAS A COMPROMISE: NIPPY OR FORGIVING, FLEXIBLE AT LOW OR SMOOTH AT HIGH SPEEDS. D2 DOUBLEDECK IS UNPRECEDENTED IN THAT IT COMBINES ALL OF THESE APPARENT OPPOSITES.

The Doubledeck is a smooth ski which glides easily, a flexible ski with excellent tracking, and it's all down to its unique construction comprising two separate skis, the lower and upper decks. The two decks can move freely thanks to the connecting pieces made of elastomers.

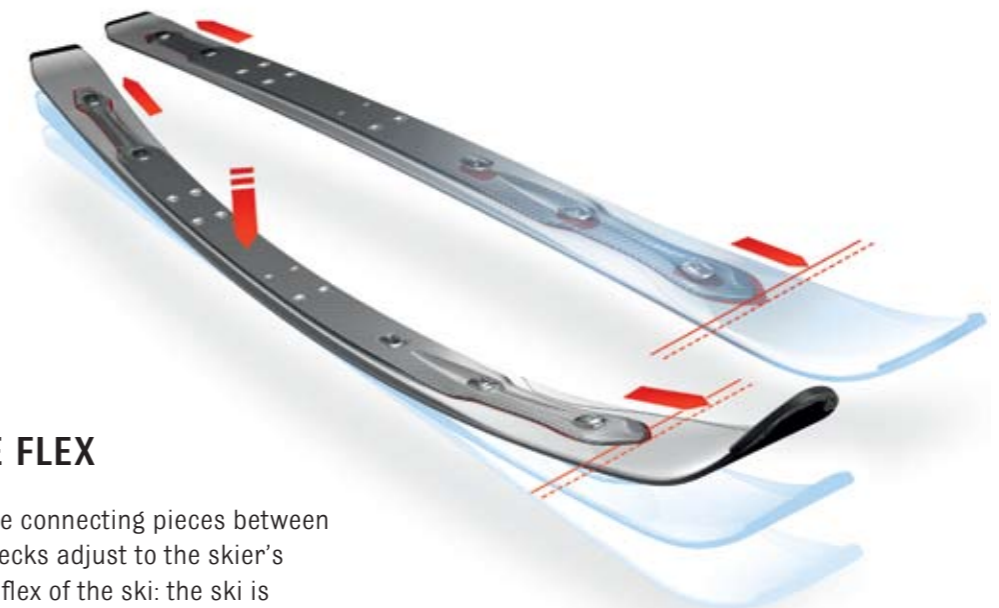

∞ The relatively soft lower deck (adapter deck) absorbs vibrations while remaining in constant contact with the snow, allowing for greater stability through turns than conventional skis as well as very smooth skiing.

The stabilising upper deck (control deck) distributes the power generated by the skier, reading the impulses and transmitting them to the lower deck.

D2 VARIO CUT WITH VARIABLE SIDECUT

On the D2 Vario Cut the soft adapter deck is split at the tip and tail of the ski. Consequently, the greater the pressure applied to the ski, the wider the ski becomes at the front and rear. The radius of the D2 Vario Cut therefore becomes smaller by up to six metres in shorter turns – the usual difference between a slalom and giant slalom ski. The D2 Vario Cut is therefore the first ski which allows skiers of any physical or technical ability to perfectly carve a turn, whatever its radius.

D2 VARIO FLEX WITH VARIABLE FLEX

On the D2 Vario Flex the connecting pieces between the upper and lower decks adjust to the skier's speed, influencing the flex of the ski: the ski is extremely easy to control even at low speeds. As the speed increases, the ski reacts more dynamically. The ski features progressively increasing flex and assists acceleration out of turns thanks to the desired ski rebound.

TECHNOLOGY

ALPINE/WOMEN

27

WOMEN FLEX ZONE

Tailored to the centre of gravity of the female body and, in comparison to men, lower physical strength, the flex at the tip and tail area is gradually softened. This gradual softening allows for easier turn initiation and a smoother finish to the turn. Depending on the skier's style and ability, the WFZs are distributed between the tip and tail areas in a 4:2 or 3:1 ratio.

BOOTS – THE ANATOMIC FIT

PERFORMANCE

ATOMICS GREAT “FIRST FIT” AND ALLOWANCE FOR PROPER “FUNCTION” ARE THE RIGHT INGREDIENTS SO YOU CAN SKI AT YOUR BEST.

FIRST FIT

Our AnAtomic “First Fit” makes our ski boots so comfortable. Simply put, our Last follows the complex contours of your foot to give you the perfect out of the box fit. Then we provide the right amount of comfort space matched to your performance level customizing the Fit to your needs.

FUNCTIONAL FIT

Did you know your lower body joints are in constant motion while skiing? Or at least, they should. Atomic boots support the mechanics needed for skiing well. Very well!

The Right Stuff you need to ski well:

i-flex

Optimal Forward lean angles 12-16

AFS “Adaptive Fit System”

Men's, Women's and Junior Cuff heights

1mm Offset Shell
3 deg Shell Rotation

4way Stretch Toe Box for the best forefoot fit, extends to head of 5th Met

New Easy Step in Tongue+ Strap

Lateral Fit Pocket on Team ASY Pro

AnAtomic Lasts:

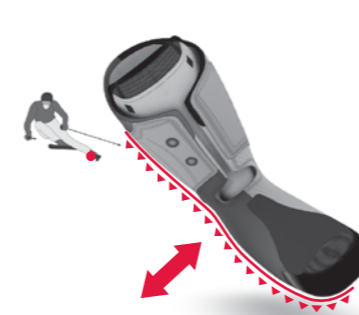

All the basics ingredients you need to ski. Period. You'd think it would be obvious. All features found in the Atomic Ski Boot Range.

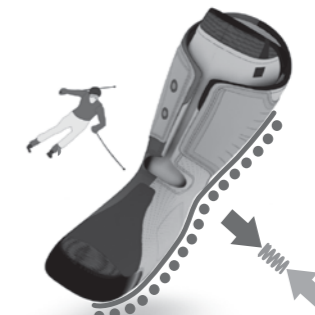

LINERS

NEW ASY – ASYMMETRICAL ADVANTAGE LINER CONCEPT

ATOMIC INTRODUCES A NEW LINER CONCEPT THAT COMPLIMENTS THE ASYMMETRICAL PROPERTIES OF HOW YOUR FOOT WORKS IN THE SHELL.

- EDGING PHASE
- MEDIAL CONTROL FACE
- SUPERIOR FEEL & GRIP FOR MAXIMUM ENERGY TRANSFER

- LATERAL RECOVERY FACE
- PERFORATED – CUSHIONS/ABSORBS PRESSURE RELEASE FROM EDGE CHANGE

Other Asymmetrical Features:

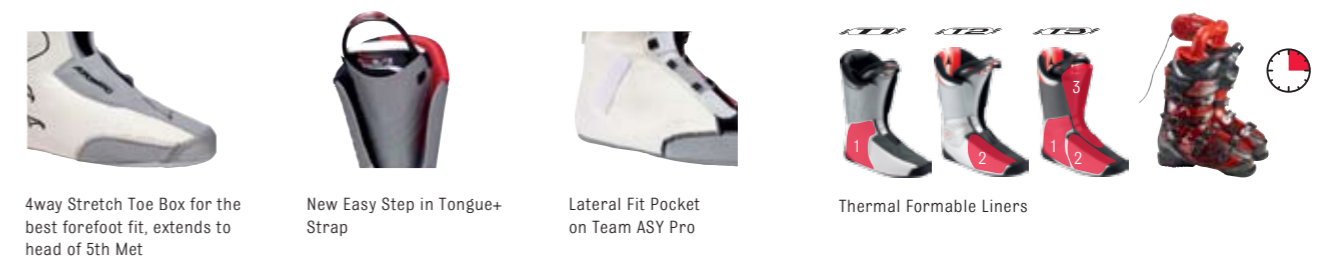

Asymmetrical Injected Collar

Asymmetrical Slider

BINDINGS

LIGHTWEIGHT AND UNCOMPLICATED

THE BEST SKI BINDINGS ARE THOSE YOU CAN SIMPLY FORGET ABOUT: BECAUSE THEY ONLY RELEASE WHEN THEY ARE SUPPOSED TO, BECAUSE THEY ARE EASY TO OPERATE, ARE ULTRA-LIGHTWEIGHT AND DESIGNED NEVER TO COMPROMISE THE PERFORMANCE OF THE SKI.

IN ORDER TO PROVIDE EVERY SKIER WITH THE PERFECT BINDING, OUR PORTFOLIO RANGES FROM THE HIGH PERFORMANCE NEOX BINDING, THE WORLD'S MOST SOPHISTICATED BINDING, TO THE ROBUST, INNOVATIVE FFG FREESTYLE BINDING, FROM THE WORLD'S LIGHTEST FULL FLEX SYSTEM TO THE SPECIAL MODEL FOR EXTRA-WIDE SHAPES.

PROTECTORS

AIR SHOCK VEST MEN G058100

Black
Size Range: S, M, L, XL

CE certified – sleeveless impact vest, ultra-light air shock protector application with perfect fitting, ergonomically formed, extra breathable and shock depressing

AIR SHOCK VEST JUNIOR G058120

Size Range:
XXXS, XXS, XS

AIR SHOCK VEST WOMEN G058110

White
Size Range:
XXS, XS, S, M, L

CE certified – sleeveless impact vest, Ultra-light air shock protector application with perfect fitting, ergonomically formed, extra breathable and shock depressing, asymmetric front zip

AIR SHOCK BACK PACK MEN G058102

Black
Size Range: S, M, L, XL

AIR SHOCK BACK PACK JUNIOR G058122

Size Range: XXS, XS

CE certified – back protector with strap system, Air shock protector application with perfect fitting, anatomically formed back, strap system with perfect fitting

AIR SHOCK BACK PACK WOMEN G058112

White
Size Range:
XXS, XS, S, M, L

CE certified – back protector with strap system, Ultra-light air shock protector, specially formed back part according to women's anatomy

AIR SHOCK SHORT MEN G058104

Black
Size Range: S, M, L, XL

comfortable foamed material, optimal tailbone, thigh and hip protection, breathable and washable

AIR SHOCK SHORT JUNIOR G058124

Size Range: XXS, XS

AIR SHOCK SHORT WOMEN G058114

RACE

A CARRY ON WHEELIE G011106

34 x 55 x 22cm, 2900g
Durable trolley system, padded laptop compartment

B BOOTBAG G011108

38 x 38 x 23cm, 550g
Front loader for easy packing, adjustable shoulder strap

C SCHOOLBAG G011118

26 x 48 x 22cm, 730g
Stabile ergonomic fit, well padded pack part

D SKIBAG ECONOMY 205CM G011116

205 x 34cm, 660g
Easy slide in system, adjustable length

E SKIBAG (165, 175, 185) G011112 (1 Pair) G011114 (2 Pairs)

185 x 25 x 14cm/
185 x 25 x 17cm
930g/980g
Completely length with zipper, adjustable shoulder strap

F BOOT BACKPACK (HELMET) G011110

34 x 33 x 28cm, 1000g
Big enough for 1 pair ski, boots, helmet, gloves, goggles

G KIDS BACKPACK G011122

20 x 34 x 12cm, 390g
Chest strap, well padded pack part

H KIDS BACKPACK SMALL G011120

20 x 26 x 12cm, 290g
Chest strap, well padded pack part

I BACKPACK G011104

46 x 32 x 20cm, 780g
Stabile ergonomic fit, lot's of zipper compartments, padded laptop compartment

J SPORTBAG G011102

61 x 33 x 33cm, 880g
One big compartment

K DOUBLE TANK WHEELIE G011100

79 x 38 x 33cm, 4500g
Durable trolley system, Big main compartment, Special ski boot compartment

A LAPTOP BACKPACK G010834

34 x 44 x 15cm, 880g
Well padded, changeable shoulder strap bag to a backpack

B BOOTBAG G011136

39 x 27 x 38cm, 320g
Front loader for easy packing, adjustable shoulder strap, one external pocket with Velcro

C TRAVELBAG WHEELIE G011130

41 x 72 x 34cm, 6600g
Durable trolley system, stabile bottom and top part

D SKIBAG ECONOMY (205cm) G011144

205 x 34cm, 800g
Easy slide in system, adjustable length

E SKIBAG (165, 175, 185) G011140 (1 Pair) G011142 (2 Pairs)

185 x 23 x 13cm/
185 x 23 x 17cm
1200g/1300g

Completely length with zipper, adjustable shoulder strap

F SKIBAG WHEELIE (200cm; 4 Pairs) G011146

200 x 51 x 18cm, 7300g
Well padded, 4 straps for fixation inside

G BACKPACK G011134

30 x 47 x 17cm, 700g
Stabile ergonomic fit, lot's of zipper compartments, padded laptop compartment

H CARRY-ON WHEELIE G011132

34 x 55 x 22cm, 2900g
Durable trolley system, padded laptop compartment

PURE

A TRAVELBAG WHEELIE G011150

64 x 38 x 33cm, 2500g
Trolley system, telescopic handle, comfortable week-end travel bag

B BACKPACK G011152

30 x 47 x 17cm, 630g
Stabile ergonomic fit, lot's of zipper compartments, padded laptop compartment

C BOOTBAG G011156

37 x 40 x 27cm, 660g
Space for 1 pair ski boots, helmet, gloves,

D SKIBAG (155, 165, 175; 1 Pair) G011158

165 x 33cm, 725g
Completely length with zipper, adjustable shoulder strap

E SKIBAG WHEELIE (2 Pair) G011160

200 x 28 x 17cm, 2600g
Completely length with zipper, adjustable shoulder strap

F HANDBAG G011154

28 x 20 x 12cm, 275g
Adjustable strap for hand or shoulder bag, several zipper pockets

G PURSE G011164

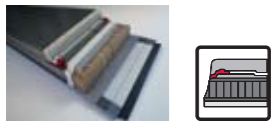

21 x 10 x 1cm, 122g
"Enough space for your money", very handy

H VANITY BAG G011162

23 x 20 x 16cm, 250g
Very convenient, mirror inside

WOMEN

SKI TECHNOLOGIES

D2 POWERCORE CAP

Thanks to a combination of Doubledeck and cap design, this agile and lively premium construction with titanium laminates and high-grade woodcore is especially dynamic and boasts excellent tracking. Two rubber elastomers in the binding area dampen vibrations and allow for smoother skiing.

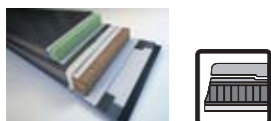

VARIO CUT DENSOLITE

This incarnation of the Doubledeck technology boasts a lightweight and dynamic Densolite core, while the Vario Cut construction allows the radius of the ski to adapt automatically to the speed and style of the skier.

VARIO FLEX DENSOLITE

The Densolite core is dynamic and lightweight, the Doubledeck construction allows the flex of the ski to adapt automatically to the speed and style of the skier: ideal for performance-driven skiers.

D2 CAP

The Doubledeck construction with tip to tail woodcore in the lower deck allows for progressively increasing flex which guarantees perfect power in turns with high G-forces.

SPEEDCORE SIDEWALL

These high-grade sidewall skis, featuring a wood core and two titanium laminates, offer perfect performance, very smooth skiing and optimised dynamics.

FUSIONCORE SIDEWALL

These sidewall skis with Densolite core are designed for fun racers and are extremely forgiving.

STEP DOWN SIDEWALL

The sidewall construction in the binding area improves impact resistance and durability. The half-cap construction at the tip and tail area protects the ski from mechanical damage.

WOODCORE SIDEWALL

The combination of sidewall ski and woodcore means these skis are both forgiving and durable.

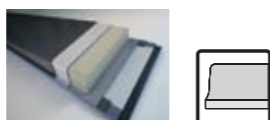

CAP WOODCORE

The integrated woodcore gives a classic cap construction the reliable power on top which is needed on rough and hard slopes.

DENSOLITE TI

The prefabricated Densolite core ensures lively performance. In conjunction with two titanium laminates, the ski is impressively smooth and lively even at higher speeds.

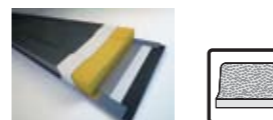

CAP DENSOLITE

Very light skis but yet stable and perfect edging in any conditions – on- and off-piste.

CAP FIBRE TI

The Titanium layer gives this cap ski the little extra power kick when it is needed for precisely carved turns.

CAP FIBRE

The classic shell construction ensures great performance even with entry models.

STEP DOWN SIDEWALL TIMBER LITE

High quality woodcore combined with Densolite means a lightweight ski with yet convincing performance in rock hard decents. The step down sidewall proves maximum robustness in the hardest terrain.

TIMBER LITE TI

The Timber Lite Core is an extremely high-grade construction with a combination of Densolite core/titanal and woodcore. Titanal increases the power of the ski, while the Densolite/woodcore provides a long lasting definated flex.

TIMBER LITE

Designed to meet the demands of alpine touring, the advantages of a wood and Densolite core construction are combined in a ski which despite being ultra-lightweight still manages to deliver ultimate performance.

U-TURN TECHNOLOGY

The energy module absorbs off-putting vibrations and transmits them in the opposite direction. This “U-turn” allows the ski to glide more smoothly, making it easier to control.

TORSION FLEX CONTROL

Torsion Flex Control (TFC) sectors stabilise the ski where torsional rigidity is required and soften the ski where flexibility is needed. Despite the wide contact surface, this makes the ski light, flexible and dynamic – in powder snow as well as on prepared pistes

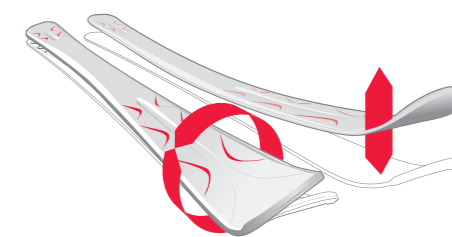

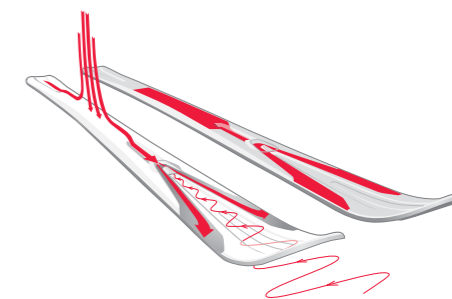

POWER ROCKER

Rocker, or an early rise of the shovel, in the tip only provides optimal directional floatation. Traditional camber underfoot and through the tail of the ski creates powerful finishes to turns and stable landing platform on large drops

POP ROCKER

Rocker, or an early rise of the shovel, in both the tip and tail provides optimal floatation for both regular and switch powder skiing. Traditional camber underfoot provides enhanced edge grip, maximum pop, and overall greater performance on harder snow.
