**WE ARE SKIING**

Whether you're a passionate athlete, infectious enthusiast or a first-time adventurer, Atomic has the equipment to get everyone to the next level.

To experience the thrill we all live for.

# BE IN YOUR ELEMENT

WHATEVER SKIING YOU'RE INTO,  
WE'VE GOT IT COVERED.

RACE

ALL MOUNTAIN

FREESKI

WOMEN

BACKCOUNTRY TOURING

KIDS

## RACE

### REDSTER DOUBLEDECK SL

The ultra-agile top-of-the-range model for high speeds and fast edge-to-edge transition.

### X 12

The binding designed for uncompromising race performance and exceptional power transmission.

### TROOP SL

The progressive half shell helmet with optional chin guard.

# RACER READY...

Faster and more streamlined than ever. The new Race range.

### REDSTER FIS

The first choice for racers; boasting an extremely comfortable fit and featuring four interchangeable lenses.

### RACE SHIRT

The FIS-approved high-performance, breathable protector.

### REDSTER CARBON COMPOSITE

The exceptionally lightweight and stiff pole with anti-slip Pro Grip.

### REDSTER PRO 130

The ultra-stiff race boot for powerful acceleration.

## ALL MOUNTAIN

### HAWX 110

The high-performance all-mountain boot with cutting-edge Dynashape Foam.

### LIVE SHIELD VEST MEN

The soft, ultra-protective back protector made from flexible lightweight soft foam segments.

# ALL MOUNTAIN. ALL DAY.

For every condition and every terrain. The new All Mountain range.

### NOMAD LF

The dual ventilation helmet with custom fit thanks to Live Fit Technology.

### REVEL M

The first ski goggles with Live Fit Technology and instantly interchangeable high-grade lenses.

### NOMAD²

The lightweight ski pole with new Free Grip for easy handling.

### BLACKEYE TI

The sporty all-mountain ski with innovative ARC Technology designed for a smooth, natural ride.

### XTO 12

The lightweight performance binding.

## FREESKI

### LIVE SHIELD VEST MEN

The soft, ultra-protective back protector made from flexible lightweight soft foam segments.

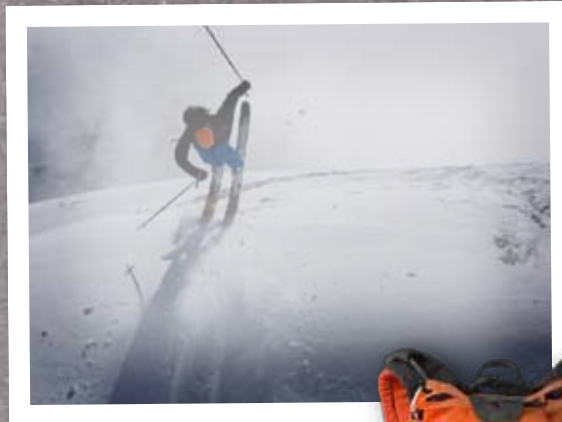

### WAYMAKER CARBON 130

The freeride boot with super stiff Carbon Spine and a brand new Free/Lock system.

### STH<sup>2</sup> 16 WTR

The steel-reinforced freeski binding; also ideal for wider skis.

### REVEL<sup>3</sup> M

The first ski goggles with Live Fit Technology and instantly interchangeable high-grade lenses.

### TRACKER ABS FREERIDE PRO PACK 20L

The cleverly designed freeride backpack, compatible with the ABS system.

### TROOP

The lightweight, ultra protective half shell helmet with headphone compatible ear pads.

### POWDER

The lightweight aluminum pole with new Free Grip and new Powder Basket.

### AUTOMATIC

The top-of-the-range big mountain model with Powder Rockers at the tip and tail for exceptional floatation.

# EXPRESS YOURSELF.

Ski it your way. Our new Freeski range.

## WOMEN

### AFFINITY PURE

The agile and exceptionally smooth all-mountain ski for all types of snow and any terrain.

### XTO 10 AF

The lightweight performance binding.

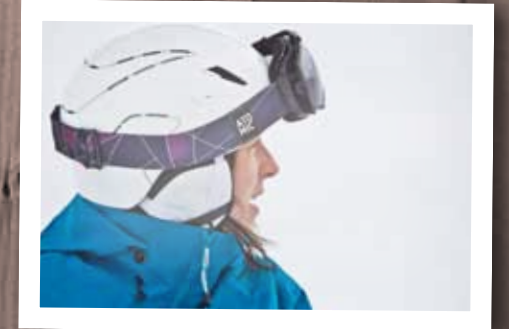

### WAYMAKER 80 W

The lightweight performance boot with Free/Lock system, designed for an easy step-in and convenient walking.

### MENTOR LF W

The innovative, exceptionally lightweight full shell helmet with active ventilation system and Live Fit Technology.

### REVEL<sup>3</sup> S

The first ski goggles with Live Fit Technology and instantly interchangeable high-grade lenses.

### AFFINITY

The ski pole with super-soft foam grip, designed with the female skier specifically in mind.

### LIVE SHIELD VEST WOMEN

The soft, ultra-protective back protector made from flexible lightweight soft foam segments.

# SHINE OUT.

Meet the bright new performance range for Women.

## BACKCOUNTRY TOURING

# HIT THE BACK COUNTRY.

With our new Backcountry Touring range.

### DRIFTER PRO SKINS

The custom climbing skin for reliable grip and exceptional glide phases.

### REVEL<sup>3</sup> M

The first ski goggles with Live Fit Technology and instantly interchangeable high-grade lenses.

### TRACKER DAYPACK 18L

The lightweight day pack with ergonomic back panel.

### WAYMAKER TOUR 110

The exceptionally lightweight Pebax boot with Carbon Spine, Tech Inserts and the brand new Free/Lock system.

### MENTOR LF

The innovative, exceptionally lightweight In-Mold helmet with active ventilation system and Live Fit Technology.

### BCT CARBON

The new freeride pole with carbon shaft and the new Top Cap for opening the ski binding more easily.

### DRIFTER

The lightweight backcountry ski designed to make climbing easier and descents more enjoyable.

### VANTAGE JR

The exceptionally lightweight aluminum ski pole for the younger rider.

### WAYMAKER JR 4

The exceptionally comfortable boot for the younger generation.

### TROOP JR

The lightweight half shell helmet with removable ear pads and clever Adaptive Fit system.

### FFG 7

The binding for up-and-coming X Games winners.

## KIDS

# NOT FOR GROWN UPS.

Our new range. Strictly for Kids.

### REVEL S

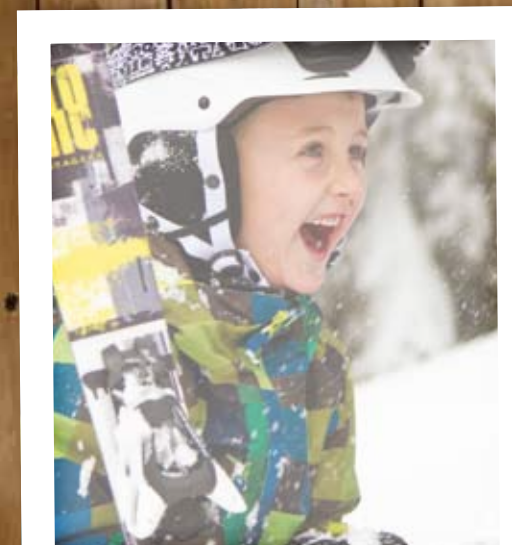

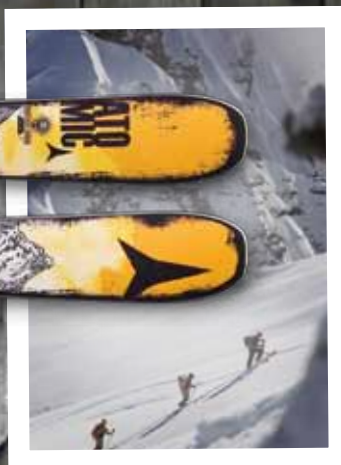

The first ski goggles with Live Fit Technology and instantly interchangeable high-grade lenses.

### LIVE SHIELD VEST JUNIOR

The incredibly lightweight back protector which adapts automatically with every movement.

### PUNX JR II

The lightweight and exceptionally stable junior ski for Park & Pipe.

## SKIS + BINDINGS

How do we manage to make the best skis in the world that little bit better every year?

By combining the tried and tested with bold innovation. The result: milestones like Doubledeck, Backbone and ARC Technology – as well as more satisfied, more successful and better skiers.

# WHERE DO YOU SKI?

## 100% ROCKER

Catch-free take offs and confident landings in the park. Extra precise edge grip and easy turn initiation on any prepared slope. Optimum performance in all snow conditions, both on and off-piste. Maximum floatation and ultra-light surf sensation in fresh powder.

Wherever skiers love to ski the most, rockers precisely tailored to the terrain beneath will improve their performance. Which is why all RACE, ALL MOUNTAIN, FREESKI, WOMEN, BACKCOUNTRY TOURING and KIDS skis boast the advantages of Rocker technology.

# REDSTER

- > UNMATCHED POWER TRANSMISSION TO THE EDGES
- > MAXIMUM SHOCK ABSORPTION
- > PRECISE CONTROL

## DOUBLEDECK TECHNOLOGY

### THE FASTEST SKIS EVER PRODUCED BY ATOMIC

The Redster is ultra-agile and can be controlled with perfect precision. Which is all thanks to the Piste Rocker in combination with innovative Doubledeck Technology, which improves rebound and produces powerful acceleration. Tried-and-tested World Cup performance for the piste.

### DOUBLEDECK TECHNOLOGY

Combines two freely gliding decks in one impressively dynamic ski. With Power Transmission Bridges for 100% power transfer to the edges and Flex Zones for easier handling and an even flex.

### SHOCKILLA DAMPENING

Shock-absorbing Shockilla inserts designed to effectively dampen vibrations and shocks.

# NOMAD [S]

- > NATURAL SKIING
- > GREAT EDGE GRIP
- > UNMATCHED AGILITY

## ARC TECHNOLOGY

### TORSION CONTROL

Torsion control guides the Float Deck to keep torsional stiffness.

### SHOCKILLA

Hi-endurance elastomer absorbs shocks and vibrations for a smooth ride and maximum control.

### FLOAT DECK

To create natural bend and adapt to different terrains, the interface between boot and ski floats free. For better traction and fluid skiing.

### ANCHOR POINT

This central fixing point channels all your power into the center of your ski. For easier, natural bending and steering.

## THE SPORTIEST ALL MOUNTAIN SKI FROM ATOMIC

The new Nomad [S] range really comes into its own on the piste. The skis are exceptionally agile and deliver maximum edge grip on prepared terrain in all snow conditions and at any time of day. ARC Technology allows the ski to flex evenly along its entire length, which in turn makes skiing incredibly natural.

### ARC TECHNOLOGY

Frees the ski to flex naturally for a smooth, natural ride.

### STEP DOWN SIDEWALL 2.0

New one-piece sidewall construction for outstanding edge grip and greater durability.

## NEW TEMPER TI

### ALL MOUNTAIN ROCKER

# VANTAGE

- > VERSATILE PERFORMANCE BOTH ON AND OFF PISTE
- > RELIABLE GRIP IN ALL CONDITIONS
- > EXCEPTIONAL SMOOTHNESS ON ANY TERRAIN

## BACKBONE TECHNOLOGY

### FOR EVERYTHING THE MOUNTAIN INSPIRES YOU TO DO

The Vantage models are genuinely versatile: good times are guaranteed in powder thanks to good floatation, while on the piste skiers can edge with precision or drift with ease. The perfect twin tips for all terrains.

### BACKBONE TECHNOLOGY

Titanium or carbon inserts run the entire length of the ski like a backbone. For greater stability (Backbone Titanium) and pop (Backbone Carbon).

### TWIN PROG SIDECUT

A bigger radius at the tip and a smaller radius at the tail for easy turn initiation and optimum grip out of turns.

# POWDER

- > MASSIVE FLOATATION IN POWDER
- > PRECISE HANDLING ON HARD TERRAIN
- > RIDDEN BY THE BEST FREESKIERS IN THE WORLD

## SPROCKET POWER BOOSTER

### THE FREESKI PRO'S FIRST CHOICE

Exceptional floatation for an ultra-light surf feeling in powder. Unmatched stability and grip for big mountain adventures. And precise handling on hard terrain: the new freeski range is loved by Chris Benchetler and co.

### SPROCKET POWER BOOSTER

Inserts in front of and behind the binding maximize smoothness and increase edge grip. For greater stability on downhill runs (SPB Titanium) and more pop on jumps (SPB Carbon).

### POWDER ROCKER

For exceptional floatation in powder and reliable grip even on hard terrain.

### WOODCORE

For maximum shock absorption and exceptional stability.

# WOMEN

- > EASY HANDLING
- > DESIGNED FOR WOMEN
- > A GREAT LOOK BOTH ON AND OFF PISTE

## PERFORMANCE AND STYLE

### PERFORMANCE AND STYLE

Every new women's model from Atomic, from the visual design to its performance in the snow, is specifically tailored to its intended purpose. From the elegant piste ski with stylishly embossed top sheet to the lightweight powder ski, there is a model for every female skier out there.

### V-SHAPE

V-shaped ski geometry for easier turn initiation and perfectly carved or smoothly drifted turns.

### HEEL LIFT

Slightly raised heel area for a more natural position while skiing. The ski is easier to control, while strain in the back area is reduced and less energy is spent.

## ATOMIC CLIMBING SKINS

### IDEALLY EQUIPPED FOR UPHILLS AND DOWNHILLS

The Tracker series for outstanding performance on powder runs. The hugely versatile Ascape models are ideal for fast ascents and challenging downhills. And the Ultimate, the incredibly light top-of-the-range ski running model. There is nothing to stop any skier from exploring the unspoilt backcountry.

### MEGA GRIP TI

Exceptionally lightweight titanium inserts in the binding area maximize torsional rigidity, improve edge grip and hold the binding more securely on the ski.

### ATOMIC CLIMBING SKINS

Custom PRE-FIT skins for all backcountry touring models. Maximum grip, effortless gliding.

### EXCEPTIONALLY LIGHTWEIGHT WOODCORE

The core construction specially developed for ski tourers reduces weight and improves shock absorption.

SKINS

> ATTACH, BEGIN CLIMBING AND DON'T GIVE THEM A SECOND THOUGHT UNTIL THE DESCENT: THE CLIMBING SKINS FROM ATOMIC.

SKIN TECHNOLOGY

- > Outstanding gliding characteristics and maximum grip for effortless climbing
- > Easy handling in any situation
- > High quality with 100% Mohair for the PRO skins and a mix of 70% Mohair and 30% Synthetic for the MIX skins.

In addition to the pre-fitted PRE FIT skins for all backcountry touring models, a MULTI FIT version which can be adapted to any of Atomic's twin-tip skis is also available.

ATOMIC FIX SYSTEM

- New and exclusive from Atomic:
- > Ultra-easy handling – even with gloves
  - > Precision attachment system keeps skins firmly in place to the very tip and prevents infiltration of snow and the skin from loosening.

MULTI FIT

# TAKE THE NEXT STEP

## WITH NEW ATOMIC BEND-X TECHNOLOGY.

The adaptive kids range that changes as they grow.

### SLIDE

Age 3 - 5

Straighter and thinner skis with Bend-X. Easy flexing boots. Perfect for sliding, and with the right support for snowplow.

### TURN

Age 5-8

Bend-X and more V-shape in the ski. Easy flexing boots with more support in the cuff. Built so young skiers can slide less and turn more.

### CARVE

Age 8-11

At the top end, skis have a good camber, boots have strong support and energetic flex. The perfect combination to start carving.

When kids grow, the way they ski changes. So we've created a range that adapts as sizes go up. For the first time, growing skiers get the support and comfort they need at every stage – all from the same range. It's thanks to some big new innovation. Like Atomic Bend-X Technology, which lets small skiers bend their skis with less power.

Piste Rockers make turning much easier. Each ski size has a different shape to suit ability and age group riding them. Even our boots adapt: as sizes get bigger the cuffs and flexes change. This keeps young skiers comfortable as they grow.

**So it's easier to learn. Easier to progress. And easier to have fun.**

# KIDS

- > EASY FLEX FOR MORE SNOW CONTACT
- > DESIGNED TO ADAPT AS KIDS GROW
- > HANDLING IS CHILD'S PLAY

## BEND-X TECHNOLOGY

### KIDS GROW, SO DO THEIR SKIS

Getting kids interested in the best sport in the world is easy when juniors are able to control their skis with ease. That's why Atomic has developed brand new kids' skis with Bend-X Technology and which are always perfectly tailored to the respective age group in the waist width, V-shape and camber.

### BEND-X TECHNOLOGY

A special Flex Zone in the binding area which enables even the lightest of kids to easily flex their skis for greater contact with the snow. Makes initiating turns easier even with little power.

### ADAPTIVE DIMENSIONS

The dimensions of the skis change as the junior grows, so that progression comes quicker and easier.

### V-SHAPE

The progressive V-shape of the skis makes it that much easier to initiate turns.

DOUBLEDECK

**DOUBLEDECK SHOCKILLA POWERCORE CAP**

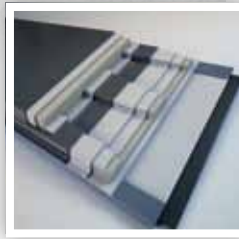

New upper deck: special flex zones in the binding area and precise power transmission along the full length of the ski ensure a dynamic flex. At the same time, Shockilla inserts below the binding and through the Power Joints provide unrivalled levels of absorption. Thoroughbred Doubledeck Race construction for an extremely agile ride and exceptionally smooth skiing.

SKIS: REDSTER DOUBLEDECK GS, REDSTER DOUBLEDECK SL

**D2 VARIO FLEX DENSOLITE**

The Densolite core is dynamic and lightweight, the Doubledeck construction allows the flex of the ski to adapt automatically to the speed and style of the skier: ideal for performance-driven skiers.

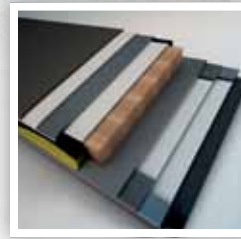

SKIS: CLOUD D2 75, CLOUD D2 73

SIDEWALL

**SHOCKILLA SIDEWALL SPEEDCORE**

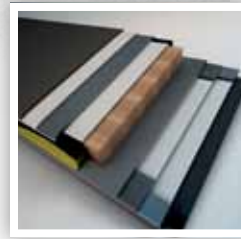

New construction and 2K Sidewall Technology in combination with a wood core. Outstanding performance, reflected in maximum smoothness and exceptional dynamics on the piste.

SKIS: REDSTER EDGE GS, REDSTER EDGE SL

**SLANTED SIDEWALL FUSIONCORE WOOD**

The sidewall skis with a combined Densolite/wood core are developed for ambitious on-piste carver. They ensure both easy performance and perfect dynamics.

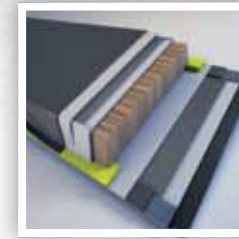

SKIS: REDSTER EDGE LT, REDSTER EDGE ST

STEP DOWN SIDEWALL 2.0

**STEP DOWN SIDEWALL 2.0 WOODCORE TI**

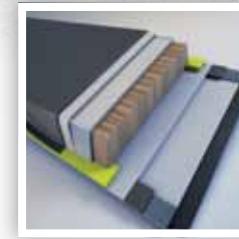

The half-cap construction at the tip and tail area protects the ski from mechanical damage, the new sidewall construction in the binding area promotes natural flex, improves edge grip and extends the life of the ski. A high-grade wood core cushions vibrations and, in conjunction with a titanium insert, is what makes the performance of the ski so unique.

SKIS: CRIMSON TI, BLACKEYE TI, TEMPER TI, RADON TI

**STEP DOWN SIDEWALL 2.0 WOODCORE**

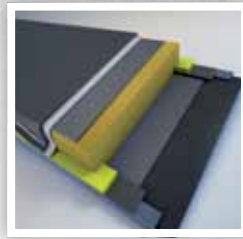

The half-cap construction at the tip and tail area protects the ski from mechanical damage. The new sidewall construction in the binding area promotes natural flex, improves edge grip and extends the life of the ski. The wood core ensures lively performance while absorbing vibrations.

SKIS: RADON, RIVAL, RIVAL PLUS, POLARITY, POLARITY PLUS, PUNX, INFAMOUS

**STEP DOWN SIDEWALL 2.0 CAP FIBER TI**

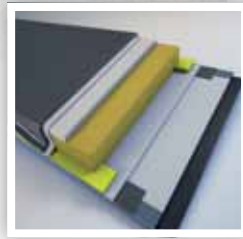

The half-cap construction at the tip and tail area protects the ski from mechanical damage, the new sidewall construction in the binding area enables a natural flex, improves edge grip and extends the life of the ski. The lightweight Cap Fiber construction makes the ski easy to control and, in conjunction with a titanium insert, delivers an even more dynamic rebound at higher speeds.

SKI: SMOKE TI

**STEP DOWN SIDEWALL 2.0 CAP FIBER**

The half-cap construction at the tip and tail area protects the ski from mechanical damage, the new sidewall construction in the binding area promotes natural flex, improves edge grip and extends the life of the ski. The lightweight Cap Fiber construction is designed to reduce weight and makes the ski especially easy to control.

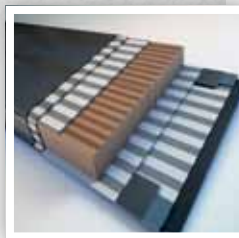

SKIS: BLACKEYE, SMOKE, SMOKE PLUS, MAGNET, TUNE, TUNE PLUS

CAP

**SPEED PROFILE 2 LITE WOODCORE / CARBON / TI**

An ultra-light caruba/poplar wood core optimizes stability and minimizes weight – it is 15 percent lighter than conventional lightweight wood cores – and ensures in conjunction with carbon a perfect performance for ski touring racers. Thanks to optimised torsional and flex rigidity, challenging slopes can still be mastered with ease even after long ascents.

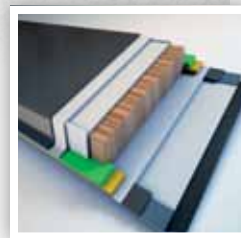

SKI: ULTIMATE

STEP DOWN SIDEWALL

**STEP DOWN SIDEWALL WOODCORE**

The half-cap construction at the tip and tail area protects the ski from mechanical damage. The sidewall construction in the binding area improves damping, shock absorption and therefore edge grip. The combination of sidewall ski and wood core ensures lively performance and maintains the flex of the ski at all times.

SKIS: MILLENNIUM, CENTURY, AFFINITY STORM, BLOG, ACCESS

**STEP DOWN SIDEWALL TIMBER LITE**

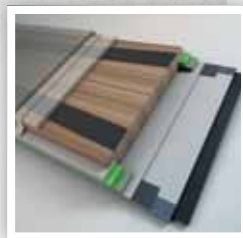

High quality wood core combined with Densolite means a lightweight ski with yet convincing performance in rock hard descents. The Step Down Sidewall proves maximum robustness in the hardest terrain.

SKI: DESCENDER

**STEP DOWN SIDEWALL / WOODCORE TITANIUM SPB / CARBON SPB**

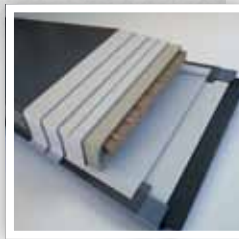

The hugely durable sidewall construction below the binding optimizes absorption and delivers reliable edge grip. The combination of wood core and SPB (Sprocket Power Booster) the Rocker area and ensures extremely smooth skiing. The Titanium SPB allows the skier's energy to be directly transferred from the binding to the edges, while the Carbon SPB delivers maximum pop in every turn.

SKIS: AUTOMATIC, BENT CHETLER

**TOUR CAP TIMBER LITE**

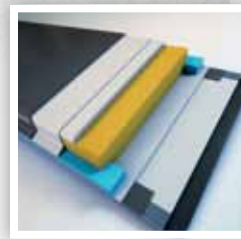

Designed to meet the demands of alpine touring, the advantages of a wood and Densolite core construction are combined in a ski which despite being ultra-lightweight still manages to deliver ultimate performance.

SKI: FREE DREAM

**STEP DOWN SIDEWALL CAP FIBER**

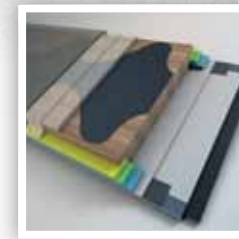

The half-cap construction at the tip and tail area protects the ski from mechanical damage, the sidewall construction in the binding area improves damping, shock absorption and therefore edge grip. The lightweight Cap Fiber construction reduces weight and ensures that the entry models deliver target group specific performance.

SKIS: CLOUD 9, CLOUD 8, AFFINITY PURE, BENT CHETLER MINI

**STEP DOWN SIDEWALL / WOODCORE TITANIUM BACKBONE**

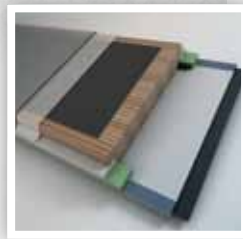

The extremely durable sidewall construction below the binding ensures optimum absorption, while the Backbone and wood core maximize the power flow and therefore improve edge grip. Vibrations in the Rocker area are effectively dampened by the Backbone. Plus its shape allows for effortless turning thanks to consistent rigidity and performance. Extreme smoothness and exceptional dynamics are the hallmarks of the Titanium version.

SKIS: ALIBI, RITUAL

**STEP DOWN SIDEWALL LITE WOODCORE TITANIUM MEGA GRIP**

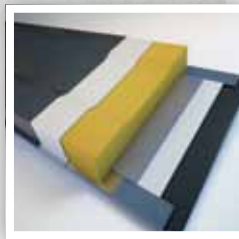

The sidewall construction provides optimum cushioning and edge grip. An ultra-lightweight wood core reduces overall weight, while the Step Down Sidewall and additional reinforcements on the sides make the ski extremely resistant to damage. Titanium Mega Grip delivers maximum edge grip thanks to high torsional rigidity below the binding and scores top marks in pull-out tests.

SKIS: ATLAS, CHARTER, DRIFTER, ASPECT

**CAP FIBER**

The classic shell construction ensures great performance even with entry models.

SKIS: CLOUD 7, CLOUD 6, CLOUD PLUS, AFFINITY AIR, AFFINITY PLUS, REDSTER JR EDGE, REDSTER JR, VANTAGE JR, VANTAGE GIRL, RASCAL JR, PUNX JR, CENTURY JR, ET LPLUS, ETL 123PLUS

**STEP DOWN SIDEWALL / WOODCORE CARBON BACKBONE**

The extremely durable sidewall construction below the binding ensures optimum absorption, while the Backbone and wood core maximize the power flow and therefore improve edge grip. Vibrations in the Rocker area are effectively dampened by the Backbone. Carbon is synonymous with agility thanks to maximum pop.

### LINER CONSTRUCTION

ASY – Asymmetric Liner Construction – The most anatomical liner on the market utilizing asymmetrically designed tongue, toe box, collar shape, and outer lining materials all geared towards creating a better fitting and ultimately more comfortable liner.

### VELVET MAX

Velvet Max is the softest and most comfortable lining we've ever created. Nothing else matches the instant comfort and warmth that Velvet Max provides.

### SIDAS FOOTBED

With our long partnership with Sidas Technologies we have created fantastic insoles which provide the best blend of proper support and initial first-fit comfort.

### CUSTOMIZATION

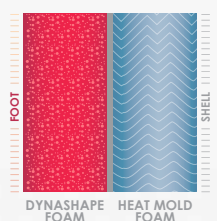

Location of Heat Moldable + Dynashape Foam:

### DYNASHAPE FOAM

Dynashape is a revolutionary foam that not only instantly adapts to the shape of the foot but it also provides a longer lasting fit at the same time.

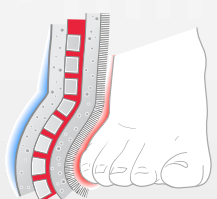

\*All Hawx Men

### CLIMA FOAM

Uniquely Atomic, this foam has air channels in its construction trapping more air against the foot creating a new standard of insulation.

\*All Hawx Women & Live Fit 90-80W

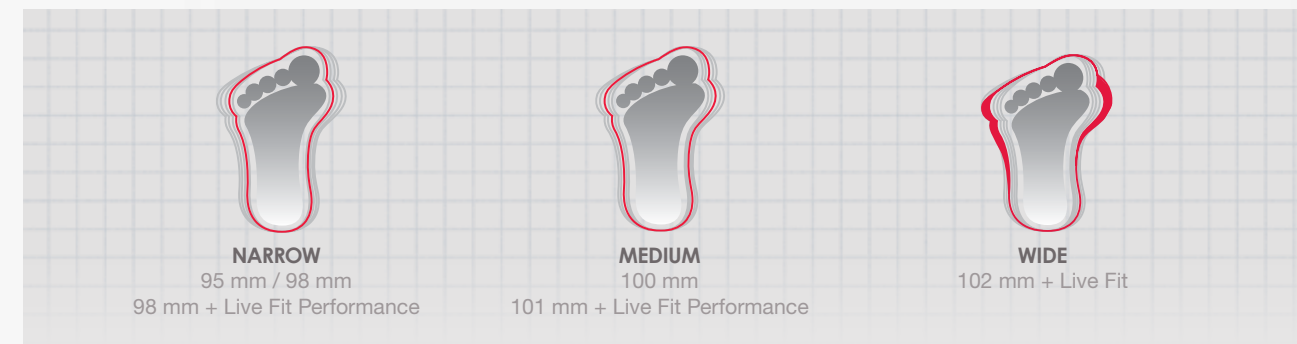

### COMFORT. FIT. PERFORMANCE.

A good ski boot needs to fit. It needs to be comfortable. And it needs to perform well. It is exactly these three things skiers are most concerned about when buying new ski boots. This is why at Atomic we are committed to focusing our know-how on finding the right fit, comfort and performance in all of our boots. Thanks to our innovative technologies in both liners and shells we have created boots that are perfectly tailored to every type of skier out there, wherever you ski.

## SHELL TECHNOLOGY

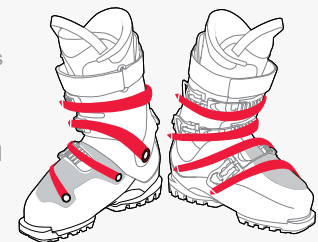

### FOOT SEGMENTATION

There is no such thing as an "All Mountain" or "Touring" foot shape. Different people have different foot shapes – ranging from narrow to medium to wide feet – regardless of where they love to ski. This is why we have designed our whole range around making sure whatever your type of skiing, we have the perfect fitting boot for you.

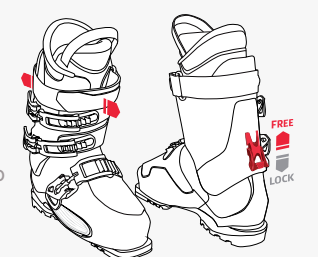

### 3-BUCKLE CONSTRUCTION

Our easy to use 3-buckle construction securely wraps the foot, holds the heel in place, and supports the leg providing 4-buckle foot hold and energy transmission.

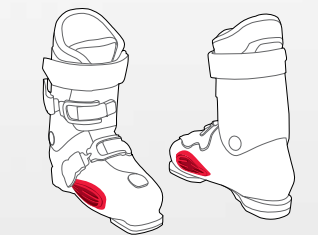

### FREE/LOCK SYSTEM

Lift the lever and allow the cuff to freely move, providing optimum stride as well as easy entry and exit. Return the lever and mechanically lock the cuff to the shell for 100% power on the descent.

### LIVE FIT

These elastic zones automatically adapt to the skier's forefoot shape providing instant comfort, improved feel, better blood flow, warmer toes ... happier feet.

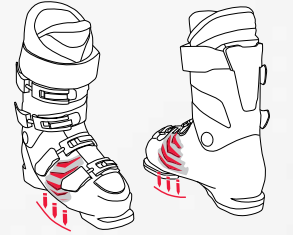

### CARBON SPINE

Carbon reinforced areas of the cuff and shell provide increased responsiveness and power transmission while maintaining feel and sensitivity at the front of the boot.

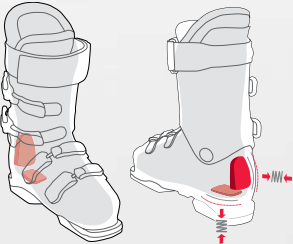

### i-FLEX

True game improvement technology that allows the skier's forefoot to naturally flex during a turn, providing the skier with better balance, more control, and easier skiing.

### SHOCKILLA

The Shockilla 3D heel is a heel insert made from ultra-shock-absorbing rubber and soft silicone. It cushions vibrations and shocks very effectively on normal and switch landings.

# REACH YOUR PEAK

In a boot that lets you climb  
as well as it lets you ski

## WAYMAKER TOUR

1398m

### COMPATIBLE

Fits lightweight TLT  
or AT frame bindings

1451m

### MOBILE

New Free/Lock  
System releases cuff  
to lengthen your stride

1745m

### LIGHT

Built with a  
lightweight Pebax  
shell, Carbon Spine  
and Intuition liner

2253m

### RELIABLE

Skywalk  
rubber  
all-terrain  
soles grip  
snow, rock  
and ice

2435m

Carbon Spine gives strength,  
power and control all  
the way down

# REDSTER

- > EXPLOSIVE ACCELERATION
- > ULTRA-PRECISE POWER TRANSMISSION
- > INDIVIDUAL TUNING

## CARBON SPINE

### MORE POWER. MORE PRECISION.

Super powerful. Ultra dynamic. Individually adaptable. The Redster is Atomic's fastest boot ever.

- 98 MM NARROW FIT**
- 1-COMPONENT SHELL WITH CARBON SPINE**
- 1 MM OFFSET SHELL**
- 0° SHELL ROTATION**
- FORWARD LEAN ANGLE 16-18°**
- FLAT BOTTOM CHASSIS**

### CARBON SPINE

Carbon reinforced areas of the cuff and shell provide increased responsiveness and power transmission while maintaining feel and sensitivity at the front of the boot.

### FLEX FRAMES

Three interchangeable Flex Frames tune the feel underfoot for different disciplines and skiing styles. With three grades of hardness ranging from soft to medium to hard, the user can adjust the feel and sensitivity of the sole to exactly meet his needs.

# WAYMAKER

- > PERFECT FIT
- > VERSATILE PERFORMANCE ON AND OFF GROOMED SLOPES
- > EASY HANDLING

FREE/LOCK SYSTEM

THE NEW ALL-ROUNDER FOR EVERY SKIING DAY

The Waymaker is the most versatile boot out there. Its fantastic fit is based on Atomic's unbeatable medium fit, thus providing perfect foot hold while skiing. Thanks to its light weight construction and new Free/Lock System, walking from A to B is easier than ever.

- 101 MM MEDIUM FIT + LIVE FIT PERFORMANCE
- 1-COMPONENT SHELL WITH CARBON SPINE
- 1 MM OFFSET SHELL
- 3° SHELL ROTATION
- FORWARD LEAN ANGLE 15°
- FLAT BOTTOM CHASSIS

FREE/LOCK SYSTEM

Lift the lever and allow the cuff to freely move, providing easy entry and exit. Return the lever and mechanically lock the cuff to the shell for 100% power while skiing.

CARBON SPINE

A carbon reinforced cuff provides increased responsiveness and power transmission while maintaining feel and sensitivity at the front of the boot.

LIVE FIT PERFORMANCE

A Live Fit Zone is purposefully placed on the lateral side of the foot to eliminate common "hot spots", while the medial side of the boot remains solid for power transfer and edge grip.

# WAYMAKER TOUR

- > SUPERB DOWNHILL PERFORMANCE
- > LIGHT WEIGHT
- > FULL FREEDOM OF MOVEMENT: 35° OF CUFF MOBILITY

## TOURING GRIP PADS WITH TECH INSERTS

### REACH YOUR PEAK

Thanks to its Carbon Spine, Pebax construction and all new Free/Lock System, the Waymaker Tour is perfectly balanced to offer efficient ascending and superb downhill performance.

#### 101 MM MEDIUM FIT + LIVE FIT PERFORMANCE

#### 1-COMPONENT SHELL WITH CARBON SPINE

#### 1 MM OFFSET SHELL

#### 3° SHELL ROTATION

#### FORWARD LEAN ANGLE 15°

#### FLAT BOTTOM CHASSIS

#### 35° CUFF MOBILITY

### CARBON SPINE

Carbon reinforced areas of the cuff and shell provide increased responsiveness and power transmission while maintaining feel and sensitivity at the front of the boot.

### FREE/LOCK SYSTEM

Lift the lever and allow the cuff to freely move, providing optimum stride. Return the lever and mechanically lock the cuff to the shell for 100% power on the descent.

### MULTI-NORM CHASSIS

Our Touring Grip Pads are made of genuine Skywalk Rubber, complete with industry standard Tech Inserts and interchangeable with Multi-Norm Chassis DIN Grip Pads.

# TRACKER

- > PERFECT HOLD
- > MAXIMUM POWER TRANSMISSION
- > FREEDOM OF MOVEMENT ON THE ASCENT: 20° OF CUFF MOBILITY

FREE/LOCK SYSTEM

TOP PERFORMER IN THE BACKCOUNTRY

Updated with the new Free/Lock System, the Tracker will truly take you wherever you want to go and let you rip the descent when you get there.

-  98 MM NARROW FIT + LIVE FIT PERFORMANCE
-  1-COMPONENT SHELL
-  1 MM OFFSET SHELL
-  0° SHELL ROTATION
-  FORWARD LEAN ANGLE 16-18°
-  20° CUFF MOBILITY

FREE/LOCK SYSTEM

Lift the lever and allow the cuff to freely move, providing optimum stride. Return the lever and mechanically lock the cuff to the shell for 100% power on the descent.

ENDURO CHASSIS

We've taken our podium-proven race geometry and combined it with real all terrain traction made from genuine Skywalk rubber.

LIVE FIT PERFORMANCE

A Live Fit zone is purposefully placed on the lateral side of the foot to eliminate common "hot spots", while the medial side of the boot remains solid for power transfer and edge grip.

## PROGRESSIVE CUFF DESIGN

### THE NEXT GENERATION

Our future needs the best boots today. This is why we have completely revitalized our Jr boot program with all new easy to use design.

-  **OPTIMIZED JUNIOR LAST**
-  **1-COMPONENT SHELL**
-  **1 MM OFFSET SHELL**
-  **0° SHELL ROTATION**
-  **FORWARD LEAN ANGLE 15°**

### PROGRESSIVE CUFF DESIGN

As the child progresses, so does each boot – our cuff designs offer increased support with each model to help ensure the best flex possible.

### DRIER = WARMER = HAPPIER

All new shell and cuff design offers better waterproofing, which means warmer and happier feet.

## POLES + BAGS

The difference between a good day's skiing and the perfect day's skiing is all in the details. The right pole. The ergonomically designed straps on the backpack. The easy-to-use ski boot bag. Which is why Atomic focuses on the details.

## WOMEN MOUNTAIN BACKPACK 18 L

An ergonomic, women-specific back panel means the new Women Mountain Backpack sits centrally and comfortably on the back at all times. There is ample room for accessories in any of the interior compartments, while tools such as a shovel and avalanche probe as well as skis can be attached to the exterior. This lightweight backpack is ideal for use on the mountain or as a sporty day pack.

- > VIBRANT COLORS

## SKIS

### ATTRACTIVE AND EASY TO USE

Extra-thick edges and bases. Easy-to-use ski systems. Quick and easy binding adjustment. And a fresh, modern design: Atomic rental skis are designed to give rental operators and skiers full satisfaction.

### HEAVY DUTY RENTAL TOPSHEET

Highly scratch-resistant topsheet to protect the ski from mechanical damage.

### EXTRA-THICK BASES AND EDGES

For more grinding cycles and greater durability.

### COLOR CODE SYSTEM

Appropriate color codes allow any ski binding to be correctly adjusted to the boot straight away.

## BOOTS

### RENTAL BOOTS THAT ARE A CUT ABOVE THE REST

Our most successful, best fitting concepts available in highly durable colors, with sanitized liners, color coded sizing, and barcodes.

### POLYURETHANE SHELLS

Durable, highly scratch-resistant shells which make radiant colors and high-grade, transparent designs possible.

### COLOR CODE SYSTEM

Appropriate color codes allow any ski binding to be correctly adjusted to the boot straight away.

### SANITIZED LINERS

Soft, warm, sanitized liners which retain their high-grade appearance and remain extremely comfortable for many years.
