REDSTER FIS

- AUTHENTIC RACE-ROOM FIT
- ULTIMATE WORLD CUP ACCELERATION
- INDIVIDUAL TUNING

THE REDSTER RACING MACHINE

Redster FIS is for skiers at the top of their discipline. Co-developed and worn by Atomic top athletes like Marcel Hirscher and Mikaela Shiffrin, it's the fastest boot we've ever made. Powerful, responsive and adaptable to individual racers' needs, it has our authentic race-room fit, ultra-stiff flexes for explosive acceleration and comes in the iconic Redster racing colors. This year we've also added a new liner with more volume in the calf area, plus a better wrapping effect for a more precise fit.

MIKAELA SHIFFRIN

MEMORY FIT

Create the perfect personalized fit in minutes with our advanced heat-fitting technology.

ROTATIONAL POWER CONTROL

Rotational Power Control allows the cuff to rotate up to 5mm in each direction for lightning-fast turn initiation, plus customized control and comfort.

CARBON SPINE

Carbon-reinforced areas of the cuff and shell provide maximum power transfer and support on steep terrain, while still maintaining feel and sensitivity at the front of the boot.

FLEX FRAMES

Interchangeable Flex Frames tune the feel underfoot – with three grades of hardness to adjust the sensitivity of the sole.
