SLANT NOSE TECHNOLOGY

The Slant Nose technology optimizes ski/snow contact by acting on the tip.
Tip volume is reduced by 15%: less inertia, lighter. A livelier, more responsive ski, with easier edge control.
The center of gravity is shifted in 2 directions:
> **CLOSER TO THE INTERNAL EDGE**
For more direct weight/power transfer.
Supremely efficient advanced grip.
> **CLOSER TO THE SNOW**
For excellent ski/snow contact, precision and tolerance.

SIDE EDGES ANGLES

CASCADE TECHNOLOGY

The new Cascade Tip uses varying shapes of metal and fiberglass laminates at staggered lengths to provide a lighter extremity. The unique layered shapes control tip torsion which smoothes out turn initiation and improves full edge contact. The lighter weight tip improves the swing weight of the ski for quick and adaptable turn initiation.

Anatomically contoured heel cap provides better retention, and perfect ski control.

Accurate in-step height, moderate upper flaps forward lean allow to comfortably fit a wider range of in-steps and guarantees the perfect wrap.

Tapered mid-foot transition holds the navicular and cuboid without applying too much pressure or being too loose; and delivers control for narrow and wide feet.

Asymmetrical toe box provides the proper volume to comfortably fit the toes without compromising control and feeling. It also allows for better thermo insulation.

- Perfect wrapping all around the foot for a very wide range of feet;
- Modular in-step wrap which guarantees the correct position and retention of the foot;
- Great heel cap deFINISH and retention;
- Generous toe box volume without compromising the control and the performance;
- More anatomical feeling compared to other ski boots.

- A** 4° Ramp Angle - 10 mm gap heel vx forefoot MP 26,5
- B** 12° Forward Lean (without rear spoiler)
- C** 0° Canted shell sole (canting is given only by cuff alignment)
- D** 1.5° External upper cuff lean

100% Cotton - The Lange sweatshirt for women inspired by the mythical blue boots pleasant to be worn after a ski day. Ribbed edging on sleeves and hem.

CARGO BAG

REF. DKCB100

SEGMENT RACE SIZE 130 L

Composition:

Main fabric 600D polyester.

Technical features:

130 litre cargo bag, suitable for long trips of 2/3 days or more. Hard base, soft top section. Thanks to the two separate compartments, you can carry any damp items in the waterproof, tear-proof compartment and keep the rest of your gear dry! Sturdy material and wheels, ideally suited for air travel.

TRAVEL BAG

REF. DKCB101

SEGMENT RACE SIZE 90 L

Composition:

Main fabric 600D polyester.

Technical features:

90 litre travel bag, suitable for longer trips of 2/3 days or more. Soft bag. Two separate compartments for organized packing.

CABIN BAG

REF. DKCB102

SEGMENT RACE VOLUME 35 L

Composition:

POLYESTER 600D

Technical features:

Heavy duty bag with 2 Main Compartments, 2 Wheels, 2 zipped front pockets and 2 inner compartments separated by a mesh lining.

2 PAIRS

BASIC SKI BAG 210CM REF. DKCB403

SEGMENT RACE SIZE 210 cm

Composition:

Main fabric 600D polyester.

Technical features:

2-pair ski bag, for skis 210 cm or less.

2/3 PAIRS

WHEEL BAG 210 CM REF. DKCB103

SEGMENT RACE SIZE 210 cm

Composition:

Main fabric 600D polyester.

Technical features:

2/3-pair wheeled ski bag. Max ski size 210 cm. Ideal for travelling or if you need to take more than one pair of skis and poles. Pockets on top of bag for gloves/hats.

LANGE BASIC DUO

REF LK2B105

COLOR BLACK

Mycket kompakt pjäxväska i laptop / flightbag utförande. Pjäxorna ligger omlott i detta minimala utförande. Ett separat fack med bliktlås på baksidan. Levereras med både axelrem och rygsäcksfunktion.

LANGE HEATED BAG

REF LKCB100

COLOR BLACK

Heated bag for race competitors. 1 main compartment for ski boots, 2 zipped side pockets for accessories, 1 front pocket for tools, padded straps and back panel, padded handle, reinforced lining.

LANGE BACKPACK

REF LK1B100

COLOR BLACK

The main compartment will hold a pair of boots, a helmet (protected in an internal cover), while gloves and accessories can be carried in the three outside pockets. Its detachable seat system means you can use this pack when you're not racing too! Features: 600D PVC-coated polyester, helmet bag, reinforced shoulder straps, large outside pockets for all your accessories.

LANGE PRO

REF LK1B101

COLOR BLACK

Backpack capacity over 20 liters. Side boot holders with straps to keep the carried equipment dry. 600D and 1200D polyester. Ergonomic back for maximum comfort. Hook for hydration pouch, outside mesh for your helmet.

REF LK2B100

COLOR BLACK

Our new ultra-compact backpack with integrated seat!!! Racers can now wait comfortably seated between runs, and put on or remove their boots without getting wet, all thanks to the thorough and intelligent design of this backpack. The main compartment will hold a pair of boots, a helmet (protected in an internal cover), while gloves and accessories can be carried in the three outside pockets. Its detachable seat system means you can use this pack when you're not racing too! Features: 600D PVC-coated polyester, helmet bag, reinforced shoulder straps, large outside pockets for all your accessories. 600D PVC-coated polyester.

DYNASTAR-LOOK-LANGE RACE DEPARTMENT RECOMMANDATIONS (SKIS, BINDINGS, SKIBOOTS)

General Observations: Ski selection, both model and length, always will be a very personal and, to a large degree, a very subjective decision. The following chart shows some of the common trends we noticed as a result of our ongoing testing, which should be taken into consideration when making model and length decision. Optimal ski length is determined by the following order: ability, weight and strength. The Dynastar-Look-Lange Race Department hopes you will find this information useful and wishes you an excellent winter of racing. Good luck at the races!
