

I am a Skier

You waited a long time for 2013. Remember, it's not just another year, it's the future, and you're the one with the power to change it. Buying the same old product, and expecting the same old results isn't your style. That's why you're reading this catalog that took us eighteen years to create - we couldn't have done it without you! So take this recipe book for success and drop in with us for another fun run.

JASON LEVINTHAL

PACKS & BAGS

From the chutes to the everyday commute

REMOTE

Form follows function in this slim, versatile, backcountry pack with all the essentials for the hike up and epic ride down.

FEATURES

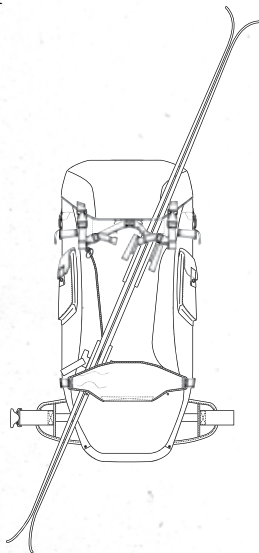

- Internal shovel & probe storage
- Diagonal ski carrier straps
- Back panel access to main compartment
- Hydration sleeve
- Slim functional profile

SPECS:

Volume: 15L / 915 cu.in.

Size HxWxD: 56x28x23cm / 22"x11"x9"

Weight: 1,020g / 2 lbs

SLOPE PACK

Get from the house to the hill with everything in one pack, ergonomically designed to feel like there's nothing on your back.

FEATURES

- Puzzle boot storage
- Big clothing compartment
- Side tool pocket
- Pleated helmet storage
- Mesh pocket for wet gear

SPECS:

Volume: 36L / 1,196 cu.in.

Size HxWxD: 45x37x24 cm / 17.7"x14.6"x9.4"

Weight: 1,170g / 2 lbs

STREET PACK

Smarter, more versatile compartmental design for every day use wherever your travels take you.

FEATURES

- TSA approved fold out laptop pocket
- Exterior side ski boots carrying straps
- Top/bottom storage transforms into single full size
- Media & organizer pockets
- Water bottle pocket

SPECS:

Volume: 24L / 1,464 cu.in.

Size HxWxD: 45x30x17cm / 17.75"x12x6".75"

Weight: 1,000g / 2 lbs

SCHOOL PACK

This is the most bang for your buck, for everyday use from school to the skatepark, backed by Line durability and style.

FEATURES

- Side Mesh pockets
- Media & organizer pockets
- Roomy main compartment
- Side Mesh pockets

SPECS:

Volume: 22L / 1,342 cu.in.

Size HxWxD: 48x29x19cm / 19"x11"x 7.5"

Weight: 480g / 1lb

SKI BAG

This simple, yet functional fully padded bag holds & protects 1 pair of skis & poles in affordable style.

FEATURES

- Sizes: 165cm & 195cm
- Padded lining
- Hand/shoulder strap
- Interior tool compartment
- Compression straps

SPECS:

Volume:

(165cm) 38L / 2,340 cu.in.

(195cm) 45L / 2,772 cu.in.

Size HxWxD:

(165cm) 165 x 15 x 15 cm / 65" x 6" x 6"

(195cm) 195 x 15 x 15 cm / 77" x 6" x 6"

Weight:

(165cm) 1,020g / 2lb

(195) 1,150g / 2 lbs

Totally NEW ROLLER SKI BAG

Bring both pair of skis and more on your next ski trip with the convenience of rollers. It may be the only bag you need.

FEATURES

- Holds 2 pair of 195cm skis

WE HAVE THE TECHNOLOGY

Line skis are developed for skiers, by even smarter skiers, using math, designed by hand using computers to make skiing more funner than the day before, every day of the year.

4-directions of fiberglass reinforcement around the core for durability and a super light & responsive feel

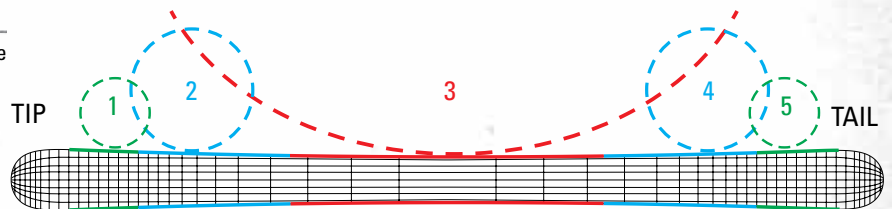

Ultra high density polyethylene walls on the edges absorbs vibrations for maximum durability & a smooth & solid feel

GEOMETRY

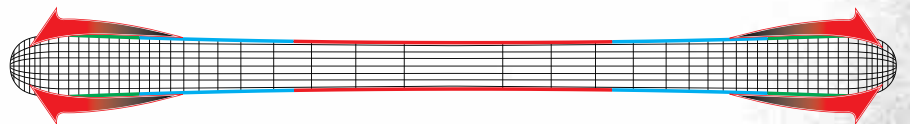

You can't always see geometry, but you can definitely feel it. Ours is designed by skiers using lots of math.

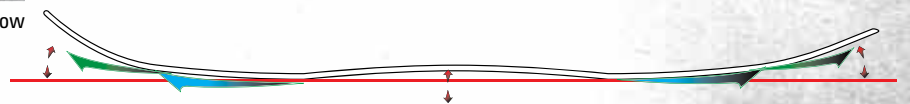

5 different sizes of sidecut radius shapes are blended into one, for intuitive control & unlimited turn shapes

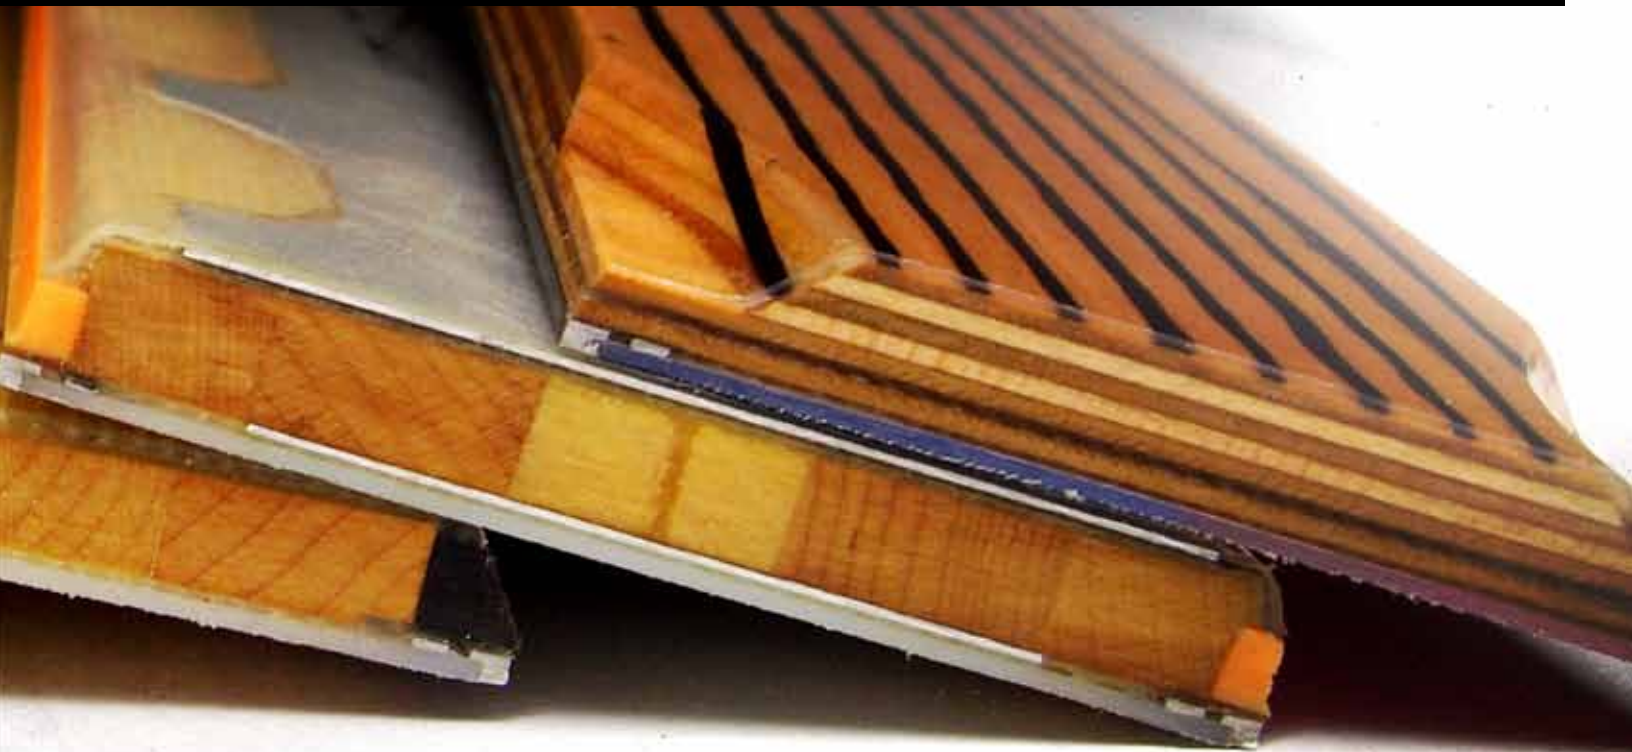

The widest point of sidecut starts tapering earlier in the tip to reduce tail drag and hooking in powder.

The rise in the tip starts earlier for effortlessly staying on top of the snow without needing to sit back & easier turn initiation.

Cap on the top for light & responsive performance, combined with sidewall over the edges for a smooth solid feel

Totally NEW

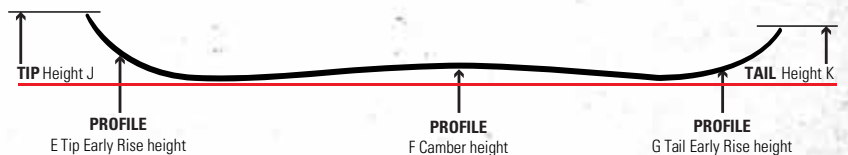

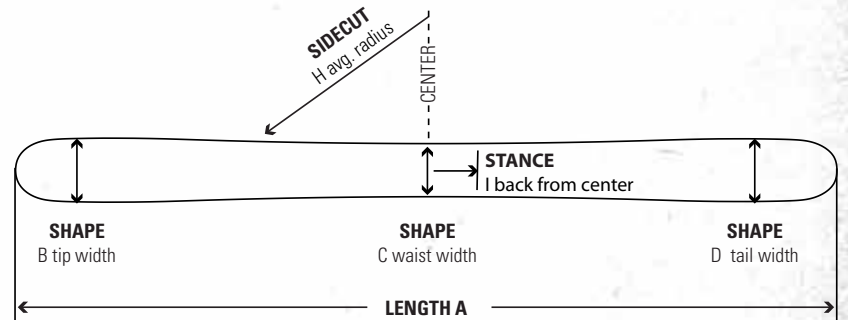

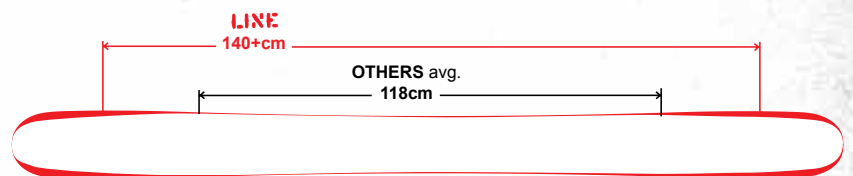

6 plys of horizontally layered Maple veneers built the same as a skateboard for unbeatable strength & shock resistance

MORE GRIP! LESS SLIP! 20% longer sidecut edge length in contact with the snow when turning than others in it's class.

SPECS EXPLAINED

- LENGTH cm: A
- SHAPE mm: B-C-D
- PROFILE mm: E-F-G
- SIDECUT m: H
- STANCE mm: I
- TIP/TAIL mm: J/K

CORES

Our 100% wood Macroblock cores are made from the highest quality, widest, laminates for a long lasting camber & energy life as well as the best engineered weight to strength ratio per model.

Solid Maple under foot with light weight Aspen at the tips for durability & reduced swing weight

100% ASPEN TIPS

100% MAPLE UNDER FOOT

2 full length Maple stringers surrounded by Aspen for the best of both worlds

50% ASPEN TIPS

80% MAPLE UNDER FOOT

100% Aspen for the lightest, most nimble feel

100% ASPEN

SUPER POWERS

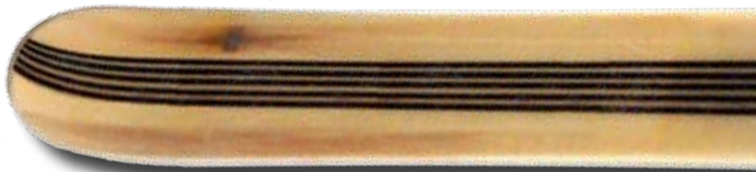

Engineered to be used in conjunction with gravity to make skiing cooler than it use to be.

3D Die cut metal titanal laminate provides more power & grip where you need it while reducing weight where you don't.

Tip to tail carbon-fiber stringers enhance energy & pop when ollieing over snowboarders.

SUPER POWERS

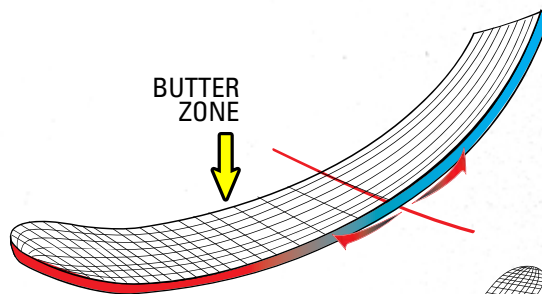

Super thin core & sidewall in the tips are 100grams lighter per pair for reduced swing weight & tip bounce

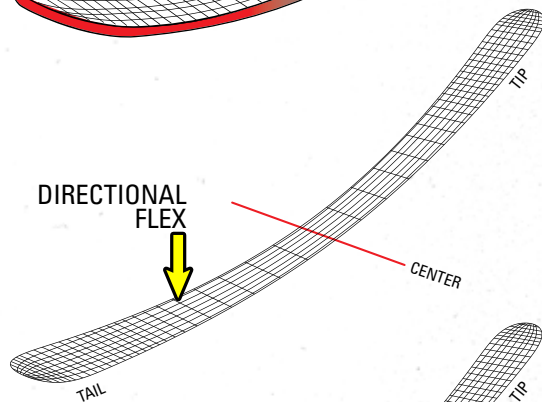

30% thicker base & edge (2mm wide x 2.5mm high) edge & 1.7mm thick base high dramatically increases durability & tuning life

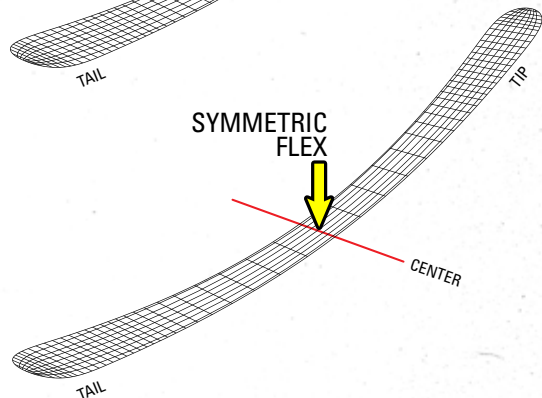

The thinnest point of the ski is in front & behind the binding to create a "hinge" point for smooth, controllable butters & presses without sacrificing all-mountain handling.

The softer tip floats & initiates turns easily while the stiffer tail provides power, stability & high speed control

The same flex pattern in-front and behind your boot conforms to terrain equally riding forward & backwards

DEVOUR THE MOUNTAIN WITHOUT CHEWING

Electrical conduit is woven into the core with control knobs on top so the ski can become aggressive like a tiger, while maintaining natural flex...like a snake
