it's time to make a couple things clear. we did not come out with p-tex, or stainless steel edges, or fiberglass, or carbon, or the gondolas, or the idea of sliding on snow, or the ski resorts and snow cats. but the guy next door did, really.

we only came out with fakie, switch, half-pipes, snowparks... the concept of freestyle, the cool lingo and the life that go with it. or actually, we have to give back to the king what belongs to the king (his name's adrien and he builds products with us by the way): this all came from skateboarding.

so let's not talk about this catalog too long: it's a prankish guidebook on how to have it the easy (amptek) way.

enjoy.

SIA Executive Market Summary 2009

REVERSE CAMBER SNOWBOARDS - THE SHAPE TO COME

→ This isn't so much a hot trend as a SEA CHANGE

SEASON-TO-DATE, adult REVERSE CAMBER boards were UP 34% in units and 31% IN DOLLARS

More telling is that adult normal camber boards (excluding carryover) dropped 35% in units and 49% in dollars in the same period.

In just TWO SEASONS, REVERSE CAMBER BOARDS moved from 8% to 34% of all non-carryover adult boards.

They are more profitable.

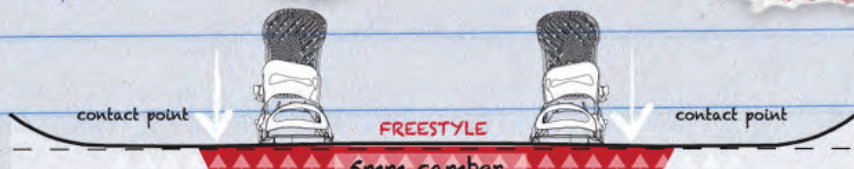

The average retail price and retail margin for an adult reverse camber board so far this season was \$377 and 35%, respectively, versus \$282 and 25% for a normal camber board."

GET SCHOOLLED

ROSSIGNOL SNOWBOARDS' AWARD WINNING ROCKER STORY

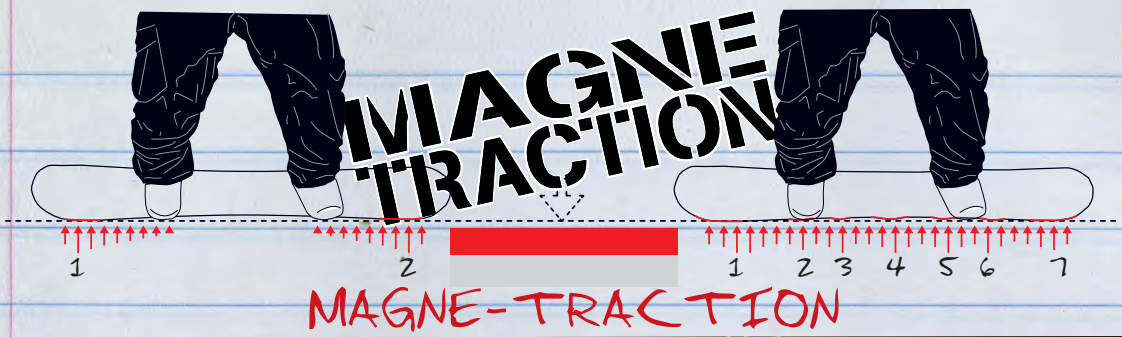

AMPTEK (PAT. PEND)

For 2011-12, we continue to refine our story with 3 versions of Amptek designed to enhance every style of riding. Unlimited mobility with the Amptek Autoturn, superior punch with the Amptek All Mountain, and explosive pop with the Amptek Freestyle. Please refer to the illustration above for

- details and always remember that:
- Amptek is for everyone.
 - Amptek makes snowboarding easier.
 - All 3 versions were designed for any terrain and all conditions.

Invented and developed by our good friends at Mervin Manufacturing, Magne-Traction has become the hottest visible technology to grace our sport since the highback. On a traditional snowboard, most of the pressure is pushed through the feet down and out to the widest part of the

board at the contact points of the tip and tail with the least amount of pressure. Magne-Traction maximizes the edge pressure between the feet so you can ride with more control and stability in the gnarliest conditions.

AMP TEK & MAGNE TRACTION PAT. PENDING

AMPTEK & MAGNE-TRACTION = MAGTEK

The best edge story meets the best camber story. We give you the best of both worlds: award winning Magne-Traction edges fused with award winning AmpTek camber. This is the cutting edge in leading board design. Better hold, more control, greater

performance for anyone, anywhere, anytime. We call it MAGTEK and it's available on the Experience MagTek, the Jigsaw MagTek, Krypto MagTek the One MagTek and the Diva MagTek.

MENS FREESTYLE

- Mostly man-made terrain features on groomed snow
- Twin tips for balanced riding whether front or switch
- Wide stance for balance and style
- Shorter length
- Softer flex between the feet for control
- Firmer tips for explosive pop and added comfort on hard landings
- Magne-traction edges for a smoother grip
- AmpTek with 40% to 80% rocker

REWCO3 - MW REWCO4

JIBSAW MAGTEK

If destruction, mayhem and chaos are your business, then the new Jigsaw MagTek is the board for you. Flatware tips and tail profiles for endless pressability, AmpTek Freestyle camber for diabolical pop, edge hold and maneuverability and Magne-Traction sidecut to make the gnarliest terrain bleed and the competition cry. The Jigsaw Magtek is the ultimate pipe and park shredder.

- ✓ Softer tips for added comfort and more grip on turns
- ✓ Magne-traction edges for ultimate grip
- ✓ AmpTek with 40% to 60% rocker

REWCO1 - REWCO2

EXPERIENCE MAGTEK

You don't have to be a nuclear physicist to know that if matter and anti-matter combine you have one hell-u-a cataclysmic event. The same holds true when 3X World Extreme Champion Xavier De Le Rue's warped sense of reality comes in contact with the endless possibilities in board design being dreamed up in the Rossi R & D lab. The result is the mind-blowing creation we call the Experience MagTek. AmpTek All-Mountain camber combined with Magne-Traction sidecut come together to create the only board capable of going where no one, except Xav, has gone before.

FEATURES

- Sizes.....159, 163, 167
164MW, 168MW

New Bindings

From Rossignol Snowboards

11-12 BINDINGS

- ✓ **NEW** 3D Asymwrap HB increases comfort and maximizes performance
- ✓ **NEW** Magnebed 2.5 features 2.5 degrees of canting puts less stress on knees and provides better pop and endless butters
- ✓ **NEW** 40oz Strap provides maximum cush and performance
- ✓ **NEW** Tallboy Strap satisfies your thirst for comfort and performance
- ✓ **NEW** Asymlight Lever is lightweight, durable, and its rapidfire ratchet gets your strap tight quickly
- ✓ **NEW** Griplight Lever is lightweight and extra durable, easily operated with gloves on
- ✓ **NEW** Puffy Pads for comfort and vibration absorption

BINDINGS TEK

Contour Light HB

The Contour Light Highback uses a semi-asymmetric shape for added comfort and support. Anti-Shock nylon construction gives it punch and heelside rigidity but keeps the overall weight as low as possible.

400z Strap

NEW

When it's time to go huge, the 400z is always the right call. 2D superfoam padding for maximum cush and performance and a convertible toe strap make these straps the ultimate choice whether you're a pimp, playa or pro.

Magnebed S3

EVA footbed with dual density padding, an adjustable toe ramp and a patented magnetic closure system. The S3 uses 3 specific foot receptor zone padding areas for amazing response and shock absorption.

HGX 33

A nylon composite/fiberglass baseplate and our EHT aluminum heelcup combine to create a binding that is 20% lighter and 50% more responsive. A tool free adjustable toe ramp and a micro-adjustable heelcup give you infinite sizing and centering options. The HGX33 version uses a 33% fiberglass ratio, blending long and short fibers for more punch and added responsiveness.

Griplight Lever

NEW

Ultralight diecast aluminum construction for durability and minimal weight, textured rubber overmold for glove friendly operation and Rossi Rapidfire ratchets for wicked fast entry and easy exit.

3D ASYMWrap HB

The 3D Asymwrap moves highback design to the next dimension. Asym shape to increase comfort especially with wide stances combined with an asym wrap on the outside edge to maximize your "butterability".

NEW

NEW

Tallboy Strap

When it's time to rage, the Tallboy is the solution. 2D full coverage instep padding with a convertible toe strap, the Tallboy will satisfy your thirst for comfort and performance.

Magnebed 2.5

NEW

The Magnebed 2.5 uses a full length EVA footbed with dual density padding, an adjustable toe ramp and a patented magnetic closure system. 2.5° of canting increases nose and tail pressure for better pop and endless butters.

Asymlight Lever

NEW

Asym diecast aluminum construction for durability and lightness with Rossi Rapidfire ratchets for wicked fast entry and easy exit.

HGX 18

A nylon composite/fiberglass baseplate and our EHT aluminum heelcup combine to create a binding that is 20% lighter and 50% more responsive. A tool free adjustable toe ramp and a micro-adjustable heelcup give you infinite sizing and centering options. The HGX18 version uses an 18% fiberglass ratio for mid level torsional resistance and increased comfort.

CPU Baseplate

Mainframe HB

The new Mainframe highback utilizes a rigid center frame for massive heelside power and specifically engineered flex zones for incredible mobility side to side.

Puffy Pads

2 zones of compression thermoformed EVA padding for comfort and vibration absorption and a progressive toe ramp.

New Pounder Strap

When it's time to take the party up a notch, the Pounder straps are the perfect call. Cored out instep strap for comfort, light weight and a convertible toe strap.

Alumilight Lever

Ultralight diecast aluminum construction for durability and minimal weight with Rossi Rapidfire ratchets for wicked fast entry and easy exit.

CPU Baseplate

The unibody CPU baseplate takes sidewall coring to the max resulting in minimal weight without sacrificing energy transfer or precision.

Mainframe HB

The new Mainframe Highback utilizes a rigid center frame for massive heelside power with specifically engineered flex zones for incredible mobility side to side.

Puffy Pads

2 zones of compression thermoformed EVA padding for comfort and vibration absorption with a progressive toe ramp.

Draft Strap

Designed to get the party started, the Draft straps combine a 2D instep strap with a lightweight convertible toe strap. You'll be living the high life from the moment you strap in.

Baselight Lever

Diecast aluminum construction for durability and freewheel ratchets for quick entry and easy exit.

CPU Baseplate

The unibody CPU baseplate has maximum sidewall coring resulting in minimal weight without sacrificing energy transfer or precision.

M/L - RG10001

EXPERIENCE

If you want to ride like World Freeride Champion Xavier De Le Rue, the Experience binding is a critical piece of the equation. New 400z Straps, HCX33 Baseplate, Magnebed S3 Footbed and Contour Light highback come together to create a binding both powerful and precise enough to tackle the type of terrain where "almost" isn't an option.

FEATURES

- HCX-33 Baseplate
- Contour Light Highback
- 400z Straps
- Magnebed S3 Footbed
- Alumalight Buckle Levers

V1 - M/L - RG10002

CUDA

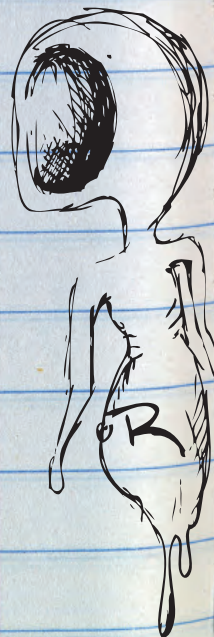

Like its legendary namesake, the Cuda is the ultimate combination of performance and power. The HCX-33 Baseplate and Magnebed S3 Footbed provide instant power transmission to your board while Sensor3 footbed technology sends constant feedback to your feet for amazing board feel. New 400z Straps keep you comfy and secure and the Contour Light Highback takes heelside power to the next level.

FEATURES

- HCX-33 Baseplate
- Contour Light Highback
- 400z Straps
- Magnebed S3 Footbed
- Griplight Buckle Levers

V2 - M/L - RG10003

COBRA

That fine line between what your skills demand and what you can afford just vanished. The new Cobra's HCX-18 Baseplate is the ultimate combination of responsiveness and shock absorption. The Magnebed 2.5 Footbed softens even the flattest landings and with 2.5° of canting adds pop to both cambered and rockered snowboards. Tallboy Straps give you the perfect blend of support and mobility and the new Asymwrap Highback wraps to the outside of your boot for o-so-stable butterability.

FEATURES

- HCX-18 Baseplate
- 3D Asymwrap Highback
- Tallboy Straps
- Magnebed 2.5 Footbed
- Asymlight Buckle Levers

- Free Back Highback
- 2D Rookie Straps
- EVA Footbed

Womens Bindings

S/M RG10004

DIVA

The Diva is all about performance and luxury. The new Asymwrap Highback form is so perfect you'll forget it's there. The Magnebed 2.5 Footbed smoothes out even the harshest impact or vibration. Strap into comfort with the new Tallboy straps and feel your troubles gently slide away.

FEATURES

- HCX-33 Baseplate
- 3D Asymwrap Highback
- Tallboy Straps
- Magnebed 2.5 Footbed
- Asymlight Buckle Levers

S/M - RG10008

JUSTICE

Who says the ladies can't be as agro as the boys? The Justice is designed with those women in mind. The new Asymwrap Highback provides instantaneous power transmission without sacrificing mobility, the Magnebed 2.5 Footbed's 2.5° of canting adds pop to any snowboard and the new Tallboy straps are comfy and secure.

FEATURES

- HCX-18 Baseplate
- 3D Asymwrap Highback
- Tallboy Straps
- Magnebed 2.5 Footbed
- Asymlight Buckle Levers

S/M - RG10013

CIRCUS

The new Circus represents the one thing snowboarding is supposed to be about...fun. Features like our new CPU Baseplate and Mainframe Highback, our new cored out Pounder Straps and tool free toe ramps with EVA Puffy Pads give the Circus amazing comfort and control which always makes a good day of snowboarding great!

FEATURES

- CPU Baseplate
- Mainframe Highback
- Pounder Straps
- Puffy Pad Footbed
- Alumalight Buckle Levers

S/M RG10014

TESLA

With features like our new CPU Baseplate and Mainframe Highback, our new cored out Pounder Straps and tool free toe ramps with EVA Puffy Pads, the new Tesla practically invents ways to make snowboarding better and proves once and for all that comfort and style don't always have to come with big price tag.

FEATURES

- CPU Baseplate
- Mainframe Highback
- Pounder Straps
- Puffy Pad Footbed
- Alumalight Buckle Levers

TEMPTATION & MYTH

Comfort and performance don't have to come at a high price. Our new CPU Baseplate and Mainframe Highback combined with our new Draft Straps and Puffy Pad Footbeds will have you giving into the new Temptation, and alt. color version Myth, and saying hello to fun...

FEATURES

- CPU Baseplate
- Mainframe Highback
- Draft Straps
- Puffy Pad Footbed
- Baselight Buckle Levers

RESORT SPECIALTY PRODUCTS

11.12 RESORT SPECIALTY PRODUCTS

TECHNOLOGY

A snowboard rental initiative. Our collection of snowboard products are targeted at the resorts covering all levels from fleet rental to high performance demo. The RSP is packaged as a rental program with products taken from the in-line range but specifically modified to address the rental shop and ski/snowboard instructor's needs:

- durable topsheet made out of transparent Polyamide showing the in-line art,
- black die-cut/print combo base with color code that matches the size color reference,
- colored sidewalls that match the size color reference,
- true twin boards with 20 sizes, going from 100 to 163MW, and waist widths, ranging from 21.5 to 26.6cm,
- tip and tail protection,
- insert pattern that allows the board to be mounted centered or directional,
- individual bar code for park management.

Hellraiser RSP

38/40/42 REWP06
Low profile tips with a short transition area for balance and pop. AmpTek AutoTurn camber for control and power. 3 waist widths to fit everyone. Learn faster, progress faster, ride faster, mach all over the mountain or go kill the park. The Hellraiser RSP is 100% pure fun and it's on fire.

- Program: Park to All Mountain FS
- Shape: True Twin w/ AmpTek AutoTurn
- Waist: 21.5 to 26.6mm
- Sidecut: 4 to 8.3m Single
- Core: Wood 5620
- Base: Extruded 3300
- Base Details: Print/Die-cut Combo
- Top Sheet: 4c Bomb Proof
- Range: Recreational to Advanced
- Flex 5 to 6/10

RIDER BENEFITS

- * 2.5° edge bevel for smoothness,
- * True Twin shapes fused with AmpTek AutoTurn camber for ease of use,
- * Wide choice of sizes for custom fit,
- * In-line art for style.

BINDINGS

It's like the shark, it's never had to evolve.

The Reflet is not only fully serviceable on site, it also has a quick tool free ankle strap length adjuster, abrasion resistant 3D straps, DUPONT™ Zytel® baseplates, aluminum buckles, tool free EZ discs and tool free heel cup adjusters with replaceable wear plates. New for 11/12: we printed the boards' size color code on the heelcup for a quicker setting.

RIDER BENEFITS

3D strap for comfort and support
Adjustable heel cup for a perfect centering on the board
Progressive toe ramp for a smooth transmission of the energy
Anti-rotation PAT.PEND toe straps for an easy strap-in

OPERATOR BENEFITS

Clip-in tool free 3D strap length/centering adjuster
Tool-free heelcup adjuster with boot size mark
Tool-free disc for quick setting/releasing
Available in 2 sizes to fit boots from 2 to 13+ US
Size print on hi-back for quick identification
Disc compatible with most of our retail models
Boards' size color code printed on the heelcup for a faster setting

EXCITE BOA 4/2 RSP (RF-10002) / EXCITE BOA 4/2 (RF-10004)

230 to 330MP | 5 to 15US MEN |

For 11/12, the new Excite Boa 4/2 is part of both the Resort Specialty Products program and the retail program. It has been modified for the third year in a row to better address the rental shop's needs while extending board feel and protection way beyond the bases. It features an articulated cuff for less shell distortion and more heel hold and response, full TPR, on the RSP version, or Nubuck®, on the retail version, wraps on backstay, heel counter, toe box and toe cap cable guide for durability and style, BOA® trademarked lace guides and 4/2 knob for better closure and added resistance to wear and tear, a Low Compression liner that will not mellow out after a week of riding, a molded EVA footbed for comfort, a barcode window pocket and size plugs on backstay and outsole for convenience, and the board's color code system printed on the backstay for quick match.

- Upper Construction: Articulated Cuff with 3P Tongue
- Backstay: One Piece TPR/Nubuck® Full Heel Wrap
- Toe Box: One Piece TPR/Nubuck® Full Wrap with Toe Cap Cable Flap & Tubing and Leash Attachment Ring
- Upper Lacing: Boa 4/2 Coiler® with Boa® lace guides
- Liner: Low Compression with Built-In Lacing & J-Bars
- Footbed: Molded EVA w/Heel Counter
- Outsole: Cup sole/Low Profiled Rubber with engraved size
- Extra: Size Tag + Barcode Window Pocket + Men and Women Boards and Bindings' Color Code Reference System
- Flex: 4/10

EXCITE RSP (RF10003) / EXCITE (RF10005)

230 to 330MP | 5 to 15US MEN

Same construction and features as the Excite Boa 4/2 but with a classic lacing system.

- Upper Construction: Articulated Cuff with 3P Tongue
- Backstay: One Piece TPR/Nubuck® Full Heel Wrap
- Toe Box: One Piece TPR/Nubuck® Full Wrap with Toe Cap Lace Protector and Leash Attachment Ring
- Upper Lacing: Silk/Nylon® O-ring Laces
- Liner: Low Compression with Built-In Lacing & J-Bars
- Footbed: Molded EVA w/Heel Counter
- Outsole: Cup sole/Low Profiled Rubber with engraved size
- Extra: Size Tag + Barcode Window Pocket + Men and Women Boards and Bindings' Color Code Reference System
- Flex: 4/10

CRUMB (RF10001)

200 to 230MP | 2 to 5US KIDS

Instructors and parents free. The construction and features of the Crumb were totally revamped for 2011 to enhance comfort and style, and allow independent use. The first comes from the thicker EVA lining, molded EVA footbed and Phylon midsole while the second and third from the Velcro Super Strap. Last but not least, we've styled the Crumb so you can also use it as a snow boot when you're not riding: why have 2 pairs of boots when 1 can do both?

- Upper Lacing: Velcro Straps
- Liner: Built-In
- Footbed: Molded EVA w/Heel Counter
- Midsole: Phylon
- Outsole: Cup sole/Rubber
- Extra: Leash Loop + Junior & Kids Boards and Bindings' Color Code Reference System
- Flex: 3/10

REFLET

• HC TOOLFREE BASEPLATE: DUPONT™ Zytel® Nylon® with fiberglass / Adjustable tool free 6082 T6 aluminum heelcup with boot size indicator and interchangeable stainless steel wear plate / Progressive toe ramp / Tool free & skip-free EZ disc

- HIGHBACK: High-Impact Nylon® / Thermoformed EVA padding / Binding size ID print / Boards size color code print
- STRAPS: Anatomic 3D shape / DUPONT™ Hytrel® Nylon® reinforcement with thermoformed complex EVA padding / Anti-abrasion PVC layers / Tool free length adjuster / Anti-rotation PAT.PEND. toe straps
- BUCKLES: Aircraft aluminum / Easy gearing/smooth releasing system
- Flex 7/10
