

[technical data]

Frenzy 149cm

Sidecut: 126-80-110 • Standard Mounting Point: 658mm • Radius: 10.9m

Who Would Ride It-

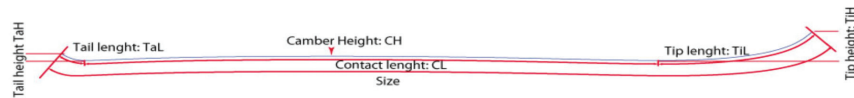

You love blazing speed at a frenzied pace on groomers and hard snow. Period. You're first on the lift for virgin cord. When most people get there, you've had 24,000 vert. Speed Range: 7-10

Features-

The most modern version of this ski is wider and at 80mm under foot it's rock solid, stable, grippy and even handles softer snow when you're in it. The 80%-20% Camber is designed for hard-snow, high-speed hookup. The Razor Cut sidecut gives this carving ski the best possible edge grip on the hardest snow.

Dimensions:

Camber:	TaL	TiL	CL	TaH	TiH	CH
