2010

ATOMIC

THE WINNER'S SKI. SINCE 1955.

WHenever Benni Raich, Aksel Lund Svindal or Lara Gut win an event, they do it on Atomic skis, just like generations of world and Olympic champions before them.

There is a very good reason why the world's best skiers have continued to place their trust in Atomic since 1955: in Altenmarkt, skis, boots and bindings are developed and manufactured with the same level of passion with which they are subsequently used. With the ambition to become that little bit better with each new day. Created by the best experts in their field for the best experts in their field.

Atomic's latest development, designed for professionals and amateur skiers alike, is the D2 Doubledeck. Atomic has re-invented the ski-making those who use it even faster.

'SKIING MEANS SPEED, POWER AND DYNAMIC. TRYING TO BRING THESE COMPONENTS IN SYNC MAKES SKIING SO ATTRACTIVE FOR ME. SKIING IS ALSO MY DEFINITION OF FREEDOM.'

BENJAMIN RAICH

'SKIING IS MY LIFE STYLE. I LIVE MY LIFE AS A SKIER AND AN ATHLETE. THIS IS THE TIME IN MY LIFE WHEN I HAVE THE CHANGE TO DO THAT, AND I WANNA MAKE THE MOST OUT OF IT.'

AKSEL LUND SVINDAL

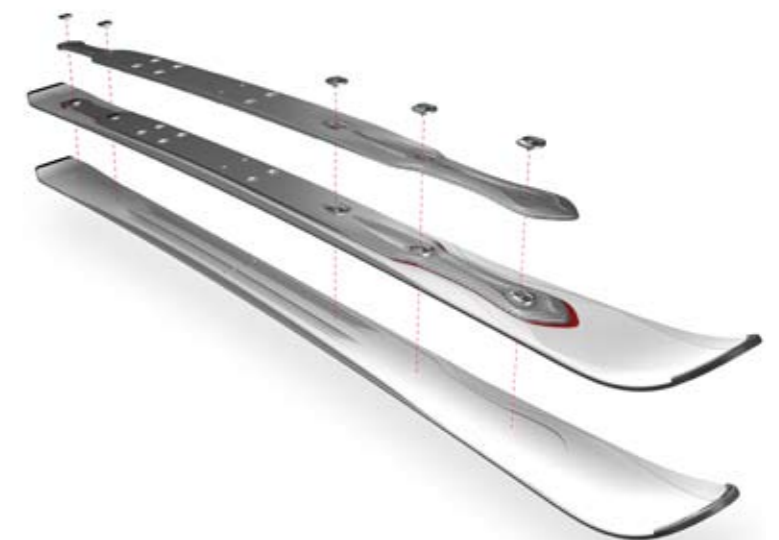

D2 DOUBLEDECK

GLIDE MORE SMOOTHLY,
TURN MORE EASILY

The Doubledeck is a smooth ski which glides easily, a flexible ski with excellent tracking, and it's all down to its unique construction comprising two separate skis, the lower and upper decks.

The relatively soft lower deck (adapter deck) absorbs vibrations while remaining in constant contact with the snow, allowing for greater stability through turns than conventional skis as well as very smooth skiing.

The stabilising upper deck (control deck) distributes the power generated by the skier, reading the impulses and transmitting them to the lower deck.

* RACE TEC RS

In response to great demand, this year we want to start including the ultimate racing ski boots in the race catalogue.

Please note: Because this is the same product as used by our World Cup stars, you cannot use these boots off-the-shelf. The ski boot is the most important link in the chain. The individual adjustments possible are so numerous that it is essential you visit an authorized racing dealer to have the boots adjusted to your requirements (canting, lift, sole grind, etc.). A list of authorized ATOMIC Racing dealers is published on our website.

This exclusive racing equipment is 5mm thicker on the bottom and not in the necessary norm (DIN), meaning that without adaptation they will not fit in the bindings. These ski boots are available in the two most popular stiffness of the regular last and one version of the super-narrow ladies last.

This level of performance is unmatched in the industry.

FIS RULES

TYPE OF RULES	2007/08 (FROM OCT.1)	OBSERVATIONS
SENIOR AND JUNIOR		New rules valid from 2007/08 for WC and COC races, for other FIS races transition to new rules in 2009/10 (1 st of October).

DISCIPLINE	MINIMUM RADIUS	MINIMUM LENGTH	MINIMUM WIDTH	
DOWNHILL MEN	45m	215cm -5cm for FIS races (but not for COC)	67mm	Radius measurement with a preparation tolerance of -1m.
DOWNHILL WOMEN	45m	210cm -5cm for FIS races (but not for COC)	67mm	Radius measurement with a preparation tolerance of -1m.
SUPER G MEN	33m	205cm -5cm for FIS races including COC	65mm	The tolerance for the moment remains applicable to COC races. Evolution to be observed.
SUPER G WOMEN	33m	200cm -5cm for FIS races including COC	65mm	The tolerance for the moment remains applicable to COC races. Evolution to be observed.
GS MEN	27m	185cm -5cm for FIS races including COC	65mm	The tolerance for the moment remains applicable to COC races. Evolution to be observed.
GS WOMEN	23m	180cm -5cm for FIS races including COC	65mm	The tolerance for the moment remains applicable to COC races. Evolution to be observed.
SL MEN	—	165cm	63mm	Tip measurement rule
SL WOMEN	—	155cm	63mm	Tip measurement rule

CHILDREN	NB: children rules presently under review.			
CHILDREN 1 GS	14m	—	—	Directly applicable FIS international races. Applicable at national level by NF decisions (most).
CHILDREN 2 GS	17m	—	—	—
CHILDREN MINIMUM LENGTH	—	130cm	—	Minimum length applicable to all disciplines including in particular SL.

STANDING HEIGHT	SKI/BINDING/PLATE	SHOES	
			New rules valid from 2007/08 for WC and COC races, for other FIS races transition to new rules in 2009/10 (1 st of October).
MEN	50mm	43mm	—
WOMEN	50mm	43mm	—
CHILDREN 1	50mm	43mm	—
CHILDREN 2	50mm	43mm	—

Summary of the situation including changes as of October 1, 2006 and as of October 1, 2007 (respectively October 1, 2009 for FIS races)

Please note that length measurement will be effected based on the total developed length/"abgewickelte Länge" (as in the past) in accordance with ISO Norm including a measurement tolerance of +/-1cm (new precision).

Please note the preparation tolerance for DH skis only. This tolerance shall not be used in the conception phase but is there to compensate possible evolution of the skis due to preparation over a period of time.

Repeat: Markings of the skis is and remain of course an obligation.

Width rule: no tolerance: preparation must be taken into account.
