

2015 2016

TWENTY YEARS?!

THE PAST

# SKIS SUCKED, ENOUGH SAID.

Long, stiff, straight and the opposite of fun, the skis of the day were uninspiring while snowboarders were spinning, jibbing, buttering and having all the fun.

1995

# SKIING THE WRONG WAY SINCE '95

Change the Product . . . change the industry! Annoyed with current ski design Jason Levinthal creates shorter symmetrical 'skiboards' with equal height tip and tails and snowboard characteristics for doing tricks.

2000

# CREATING THE FUTURE YOU SHOULD HAVE FEARED YESTERDAY

Full length symmetric skis introduced as well as the Mothership, the first fat twin tip landing Line pro Skogen Sprang on the cover of Powder testing in AK.

2001-'04

# BECAUSE SKIING NEEDS A FUTURE

Line's pro team Skogen Sprang, Mike Nick, Eric Pollard, Dash Longe and Mike Wilson focused on style and creativity pushing what was possible on skis.

2005-'07

# EXPECT THE UNEXPECTED

Inspired by Eric Pollard's vision of wider skis capable of everything, freeride skiing is revolutionized with the launch of the Prophet Series. In '06 the Prophet 100 wins SKI Magazine Ski of the Year, launching Line as a leader in freeride.

2010-'13

# KEEP SKIING WEIRD!

Not wanting to get real jobs, skiers Andy Parry & Will Wesson team up with Line and create the award winning Traveling Circus episode series. Criss crossing the world and living out of a van the series has gained countless fans and over 3 million+ views.

1996-'99

## MAKE CHANGE HAPPEN

Line pro Mike Nick and founder Jason Levinthal win gold and bronze at the first X Games skiing event pushing the popularity of freestyle.

Kris Ostness throws the first McTwists on skis at Camp of Champions.

2008-'09

## WE HAVE THE TECHNOLOGY!

After years of team development the Afterbang is introduced, the only ski built like a skateboard. Designed for park and to take a beating by urban skiers.

Max Hill lands a SBC Skier cover shot on the first edition Afterbang.

THE FUTURE

## MORE FUNNER TO INFINITY!

2014

## ENGINEERED WITH ORIGINALITY

Pushing the boundary on how fun a directional freeride ski can be the Sick Day Series is born and wins Ski of the Year. Line's leading role in more funner freeride is now solidified.

We've just begun this weird and wild journey! Learning, pushing, succeeding, failing, laughing, high fiving, fist pumping and fun having all along the way.

Line is now more than one person in a garage pushing for change, we're a team of like minded individuals. athletes, engineers and artists driven to stay true to the simple goal in the beginning, **to make skiing more funner!**

# MORE!

# LIGHTER! NEWER!

*(and totally funner)*

**TOTALLY REDESIGNED** Sir Francis Bacon

**NEW** Mordecai

**New** Sick Day Tourist and

**AWARD WINNING** Magnum Opus

## OUTSIDERS **NEW!**

Variable weather be damned! Meet the next generation of LINE Technical Streetwear. The Outsider packs tech design into a stylish delivery for all conditions, all the time.

- 10K/5K waterproof/breathable rating
- Critically seam sealed
- Pit zips
- Interior media pocket

**SIZES:** S, M, L, XL, TEAM

**COLORS:** Red, Black

## PARTY PANT **NEW!**

There's always a party somewhere ... and you're invited so be sure to wear these pants. In the park and beyond these bi-leg appendage coverings will keep you warm & dry & fly.

- 10K/5K waterproof/breathable rating
- Critically seam sealed
- Zippered Back Pocket
- Zonal lining in seat so you don't freeze your a\$\$ off

**SIZES:** S, M, L, XL

**COLORS:** Black

## ARTILLERY SHELL

Arm yourself against the elements! This shell has all the right pieces of the puzzle for the park & beyond; waterproof and breathable without being cumbersome.

- 5K/5K waterproof/breathable rating
- Critically seam sealed
- Pit zips
- Interior media pocket

**SIZES:**

S, M, L, XL, TEAM

**COLORS:**

Black, Blue

## GUNSHOW

There's no wrong way to wear the Gunshow. Hood up, sleeves off or reversed, the way you wear this is only limited to its thread count. This mid-puff isn't a puff piece. Wear it to ski and destroy.

- DWR Finish
- Critically seam sealed
- Reversible sleeves
- Back Ape patch

**SIZES:**

S, M, L, XL, TEAM

**COLORS:**

Black

# I am a Skier™

A COLLECTION OF GEAR TO MAKE THE MOST IMPORTANT STATEMENT A SKIER CAN MAKE ...

**NEW!**

### TODDLER SKIER FOREVER TEE

**SIZES:** 3T, Toddler  
**COLORS:** Green

A black and teal backpack is shown, partially unzipped to reveal a teal interior. The interior contains three red markers and a black pen. The exterior of the backpack features two patches: a circular one with a mountain range and the text 'LINE SKI COMPANY' and 'Send it', and a rectangular one with an eagle and the text 'LINE SKI COMPANY', 'SINCE '95', and 'ROUGH ON RATS!'. The word 'BAGS' is printed in large white letters across the center, with 'MOUNTAIN' above it and 'LIFESTYLE' below it.

## POLLARD'S PAINT BRUSH - FREERIDE

The best extendable length stick for park or backcountry or both! Equipped with a grippier grip and not one, but two sizes of Screwoff!™ baskets. Now with the ALL NEW Screw It All!™ tech which features a posi-drive screwdriver tip!

<b>SIZES:</b>	Adjustable 100 - 130cm / 40 - 52 in.
<b>BASKET:</b>	Two Screwoff!™ baskets 60mm & 90mm
<b>MATERIAL:</b>	7,075 Aluminum
<b>GRIP:</b>	24mm dia. Bar Tape grip

## WHIP - FREERIDE

A flexible fiberglass design allows the Whip to flex up to 3x more than aluminum all the while maintaining a sturdy feel. When a problem comes along you must whip it, whip it real good!

<b>SIZES:</b>	100, 105, 110, 115, 120, 125 / 40, 42, 44, 46, 48, 50in.
<b>BASKET:</b>	Two Screwoff!™ baskets 60mm & 90mm
<b>MATERIAL:</b>	Fiberglass Construction
<b>GRIP:</b>	26mm dia. Moto rubber grip

## GRIP STICK - FREERIDE

Grip it! Stick it! Grip Stick it! This all-new Pointy Stick is designed for those who prefer a more contoured look & feel.

<b>SIZES:</b>	100, 105, 110, 115, 120, 125 / 40, 42, 44, 46, 48, 50in.
<b>BASKET:</b>	Two Screwoff!™ baskets 60mm & 90mm
<b>MATERIAL:</b>	6,061 Aluminum
<b>GRIP:</b>	ALL NEW! Contoured Snake Grip!™ For Traditional Gripping & Grabbing

## SCREWOFF!™ POWDERBASKET

Powder waits for no man so why waste time finding tools to switch up your baskets? Quickly and easily swap out your baskets for these wider, floatier & MORE FUNNER baskets for those deep days. No tools required!

<b>BASKET:</b>	Screwoff!™ baskets 90mm
----------------	-------------------------

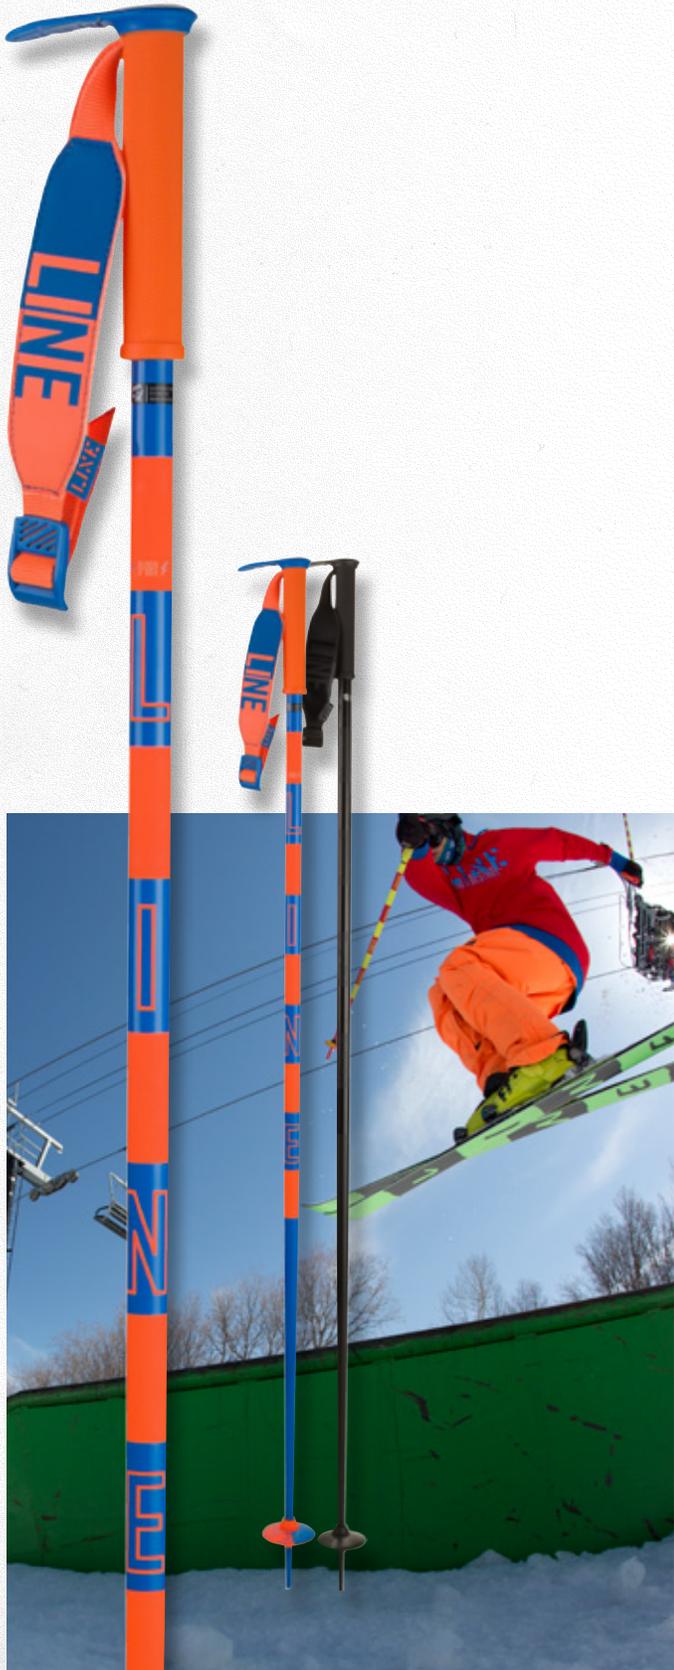

**NEW!**  
**GRIP IT!**  
**RIP IT!**

All new contoured Snake Grip™ for even more gripping & grabbing!

## PIN - FREESTYLE

All Pointy Stick technology, all the time! Light & simple, this pointy stick has everything you need and nothing you don't. Available in Orange or Black!

<b>SIZES:</b>	90, 95, 100, 105, 110, 115cm / 36, 38, 40, 42, 44, 46in.
<b>BASKET:</b>	Screwoff!™ basket 60mm
<b>MATERIAL:</b>	6,061 Aluminum
<b>GRIP:</b>	25mm dia. BMX rubber grip

## TAC - FREESTYLE

SIMPLE. LIGHT. AFFORDABLE. The TAC has a minimalist design which features the SKINNIEST GRIP IN THE WORLD™! Need to cut them down? Loosen the strap, pull out the internal nut and cut right through the grip.

<b>SIZES:</b>	90, 95, 100, 105, 110cm / 36, 38, 40, 42, 44in.
<b>BASKET:</b>	50mm super small basket
<b>MATERIAL:</b>	6,061 Aluminum
<b>GRIP:</b>	23mm softest foam grip in the world

## HAIRPIN - WOMEN'S

Light & comfortable to hold, The Hairpin won't hold you back so let your hair down and go wild!

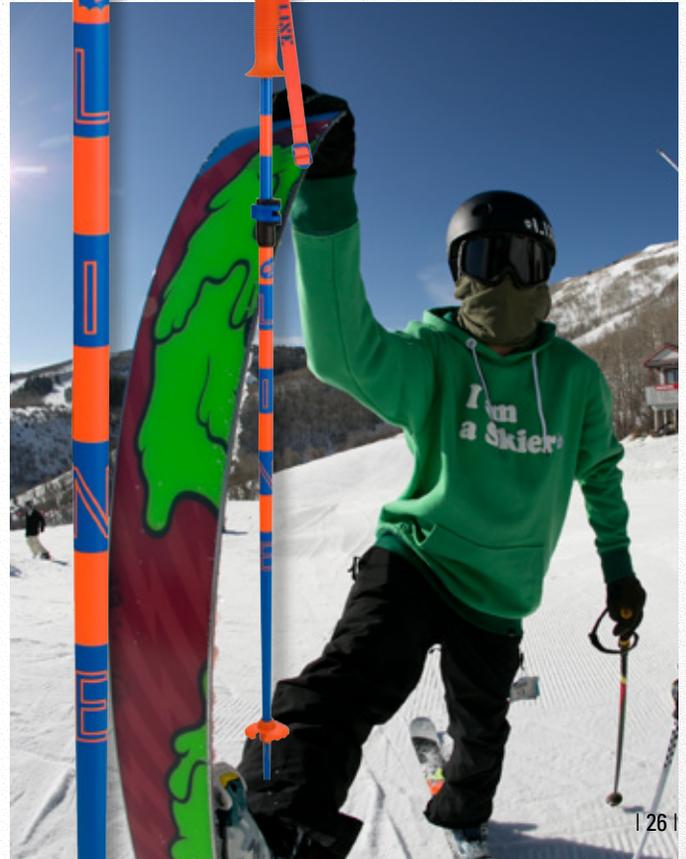

<b>SIZES:</b>	90, 95, 100, 105, 110, 115cm / 36, 38, 40, 42, 44, 46in.
<b>BASKET:</b>	Screwoff!™ basket 60mm
<b>MATERIAL:</b>	6,061 Aluminum
<b>GRIP:</b>	24mm dia. Bar Tape grip

## GET UP - SMARTEST KID'S POINTY STICK EVER CREATED!

Your little grom is constantly expanding so we made an expandable pointy stick that will grow with 'em! May double as the world's most advanced marshmallow stick, though we don't recommend it!

<b>SIZES:</b>	Adjustable 75 - 105cm / 30 - 42in.
<b>BASKET:</b>	50mm basket
<b>MATERIAL:</b>	6,061 Aluminum
<b>GRIP:</b>	Double Mushroom 22mm

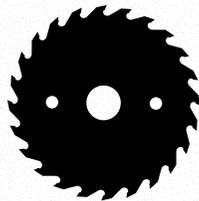

Shaper Aaron Mathers in Seattle, WA finishing off a prototype ski to be thrown in the back of a pickup, driven south and tested on Mt Hood.

**G Y**

Faster, Lighter, Stronger, Floatier, Funner and any other –er that makes our skis that much better is applied, analyzed and scrutinized by our team of athletes and engineers to the point of exhaustion. Why do we do this to ourselves you ask? It's to consistently create a product that inspires confidence on the mountain and pure stoke in the minds of those involved in producing LINE!

# GEOMETRY

You can't always see geometry but you can certainly feel it. The shapes, rises and tapers of our skis are the secret sauce that makes a Line ski perform consistently how you want it to.

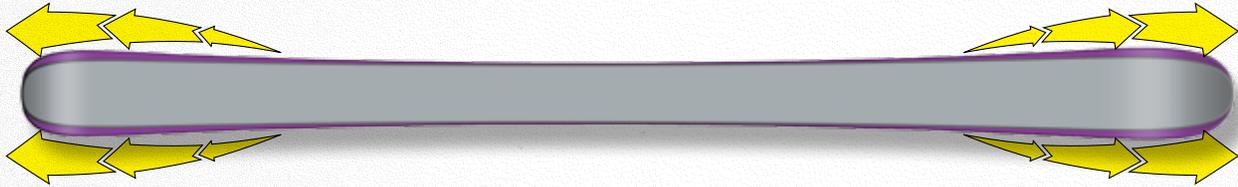

## EARLY RISE™

The rise in the tip and tail starts earlier, resulting in easy turn initiation and effortless float in soft snow.

## LONGER ACTIVE EDGE™

20% longer sidecut edge length in contact with the snow when turning than others in its class. MORE GRIP! LESS SLIP!

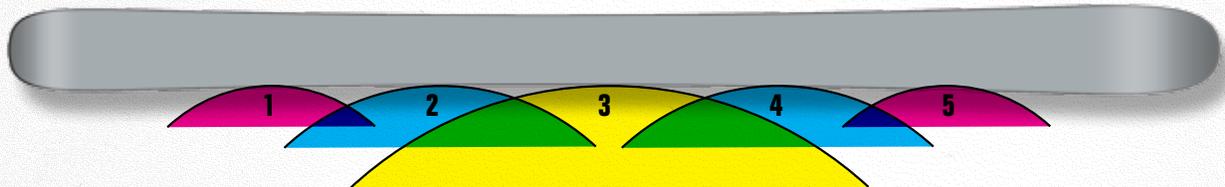

## EARLY TAPER™

The widest point of sidecut starts tapering earlier in the tip and tail to reduce tail drag and hooking in powder.

## FIVECUT™

5 different sized sidecut radius shapes are blended into one, for intuitive control & unlimited turn shapes

*Our engineers take 5 turn radius' and blend them into the side cut of a ski. The result is one of the most INTUITIVE feeling skis on the market. This "I just thought and it turned" revelation is the feeling skiers on Line have everyday around the world.*

# SKI CONSTRUCTION

There's always an overriding adjective for what a ski's purpose is. To achieve a light, stable, durable or precise ski, we have a specific construction to bring out that attribute to its full potential.

## SHOCKWALL™

Incorporates a full height & length 80 durometer Elastomer sidewall over the edges to absorb vibration & shock for a smooth solid ride.

## SIDEWALL

Ultra high density polyethylene walls over the edges absorbs vibrations for maximum durability & a smooth & solid feel

## CAPWALL™

Cap on the top for light & responsive performance, combined with sidewall over the edges for a smooth solid feel

## SKATE DECK™

6 plies of horizontally layered Maple veneers built the same as a skateboard for unbeatable strength & shock resistance

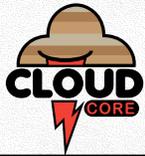

## 4D FIBERCAP™

4-directions of fiberglass reinforcement around the core for durability and a super light & responsive feel

# CORES

Each core construction is chosen to enhance the key attributes of the ski. Whether we're focused on precision and stability or nimbleness and weight, rest assured we've made the best core for the job at hand.

## CLOUD CORE™

Futuristically blended wood and composite materials create an impossibly lightweight and solid core

## MAPLE MACROBLOCK™

2 full length Maple stringers surrounded by Aspen for increased strength and durability

## MAPLELITE MACROBLOCK™

Solid Maple under foot with lightweight Aspen at the tips for durability & reduced swing weight

## ASPENLITE MACROBLOCK™

100% Aspen for the lightest, most nimble feel

# SUPER POWERS & FLEX PROFILES

It's a bird, it's a plane, no wait it's the best technological advances in ski design in the last 20 years.

## METAL MATRIX™

Die cut metal titanal laminate provides more power & grip where you need it while reducing weight where you don't

## CARBON OLLIEBAND™

Tip to tail carbon-fiber stringers enhance energy & pop to ollie over snowboarders

# SUPER POWERS & FLEX PROFILES...CONTINUED

## THIN TIP™

Super thin core & sidewall in the tips are 100grams lighter per pair for reduced swing weight & tip bounce

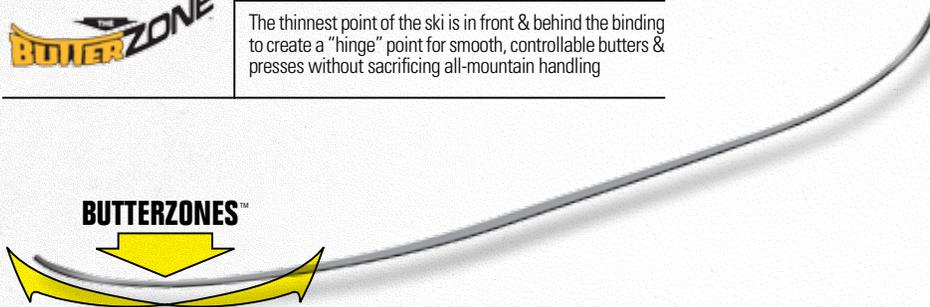

## FATTY BASE & EDGE™

30% thicker base & edge, 2mm wide x 2.5mm high edge and 1.7mm thick base dramatically increases durability and tuning life

## BUTTERZONES™

The thinnest point of the ski is in front & behind the binding to create a "hinge" point for smooth, controllable butters & presses without sacrificing all-mountain handling

## DIRECTIONAL FLEX

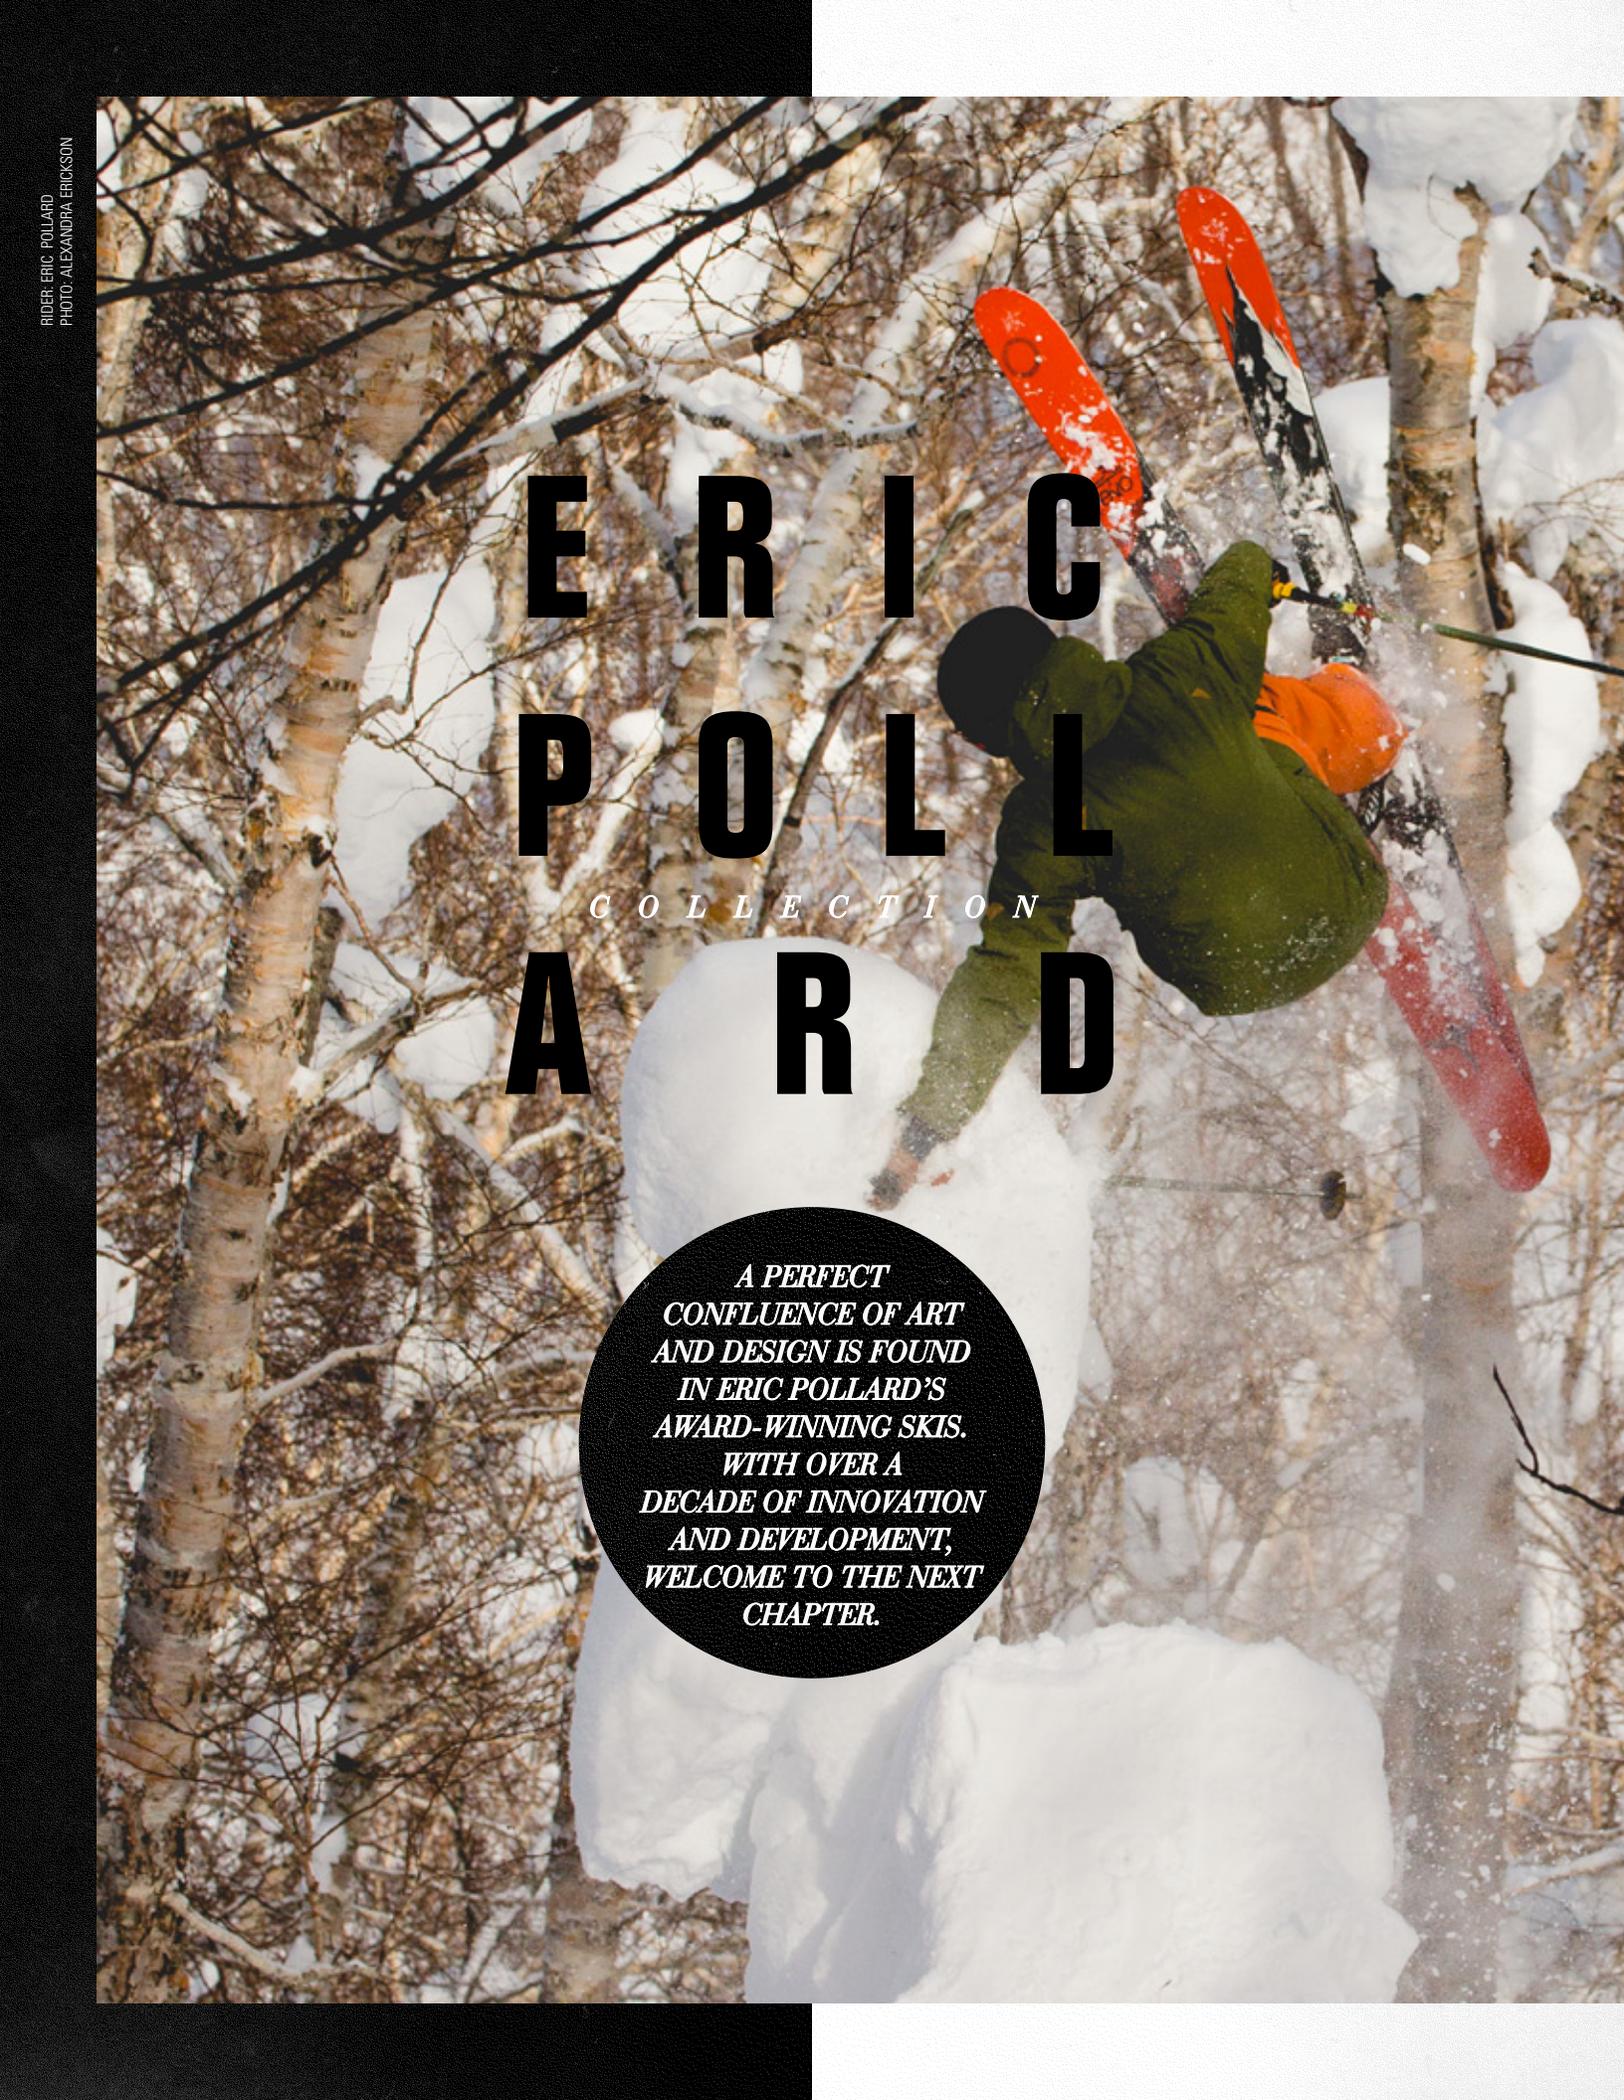

The softer tip floats & initiates turns easily while the stiffer tail provides power, stability & high speed control

## SYMMETRIC FLEX

The same flex pattern in front and behind your boot conforms to terrain equally riding forward & backwards

# HEY FYI, WE INVENTED:

## 1. SKIING (in the modern age)

- Line pioneers gear in leading and growing ski categories
- In-house staff, reps, engineers & athletes CONNECTED to new trends
- We support films, tours, events and media everywhere!

## 2. THE INTERNET!

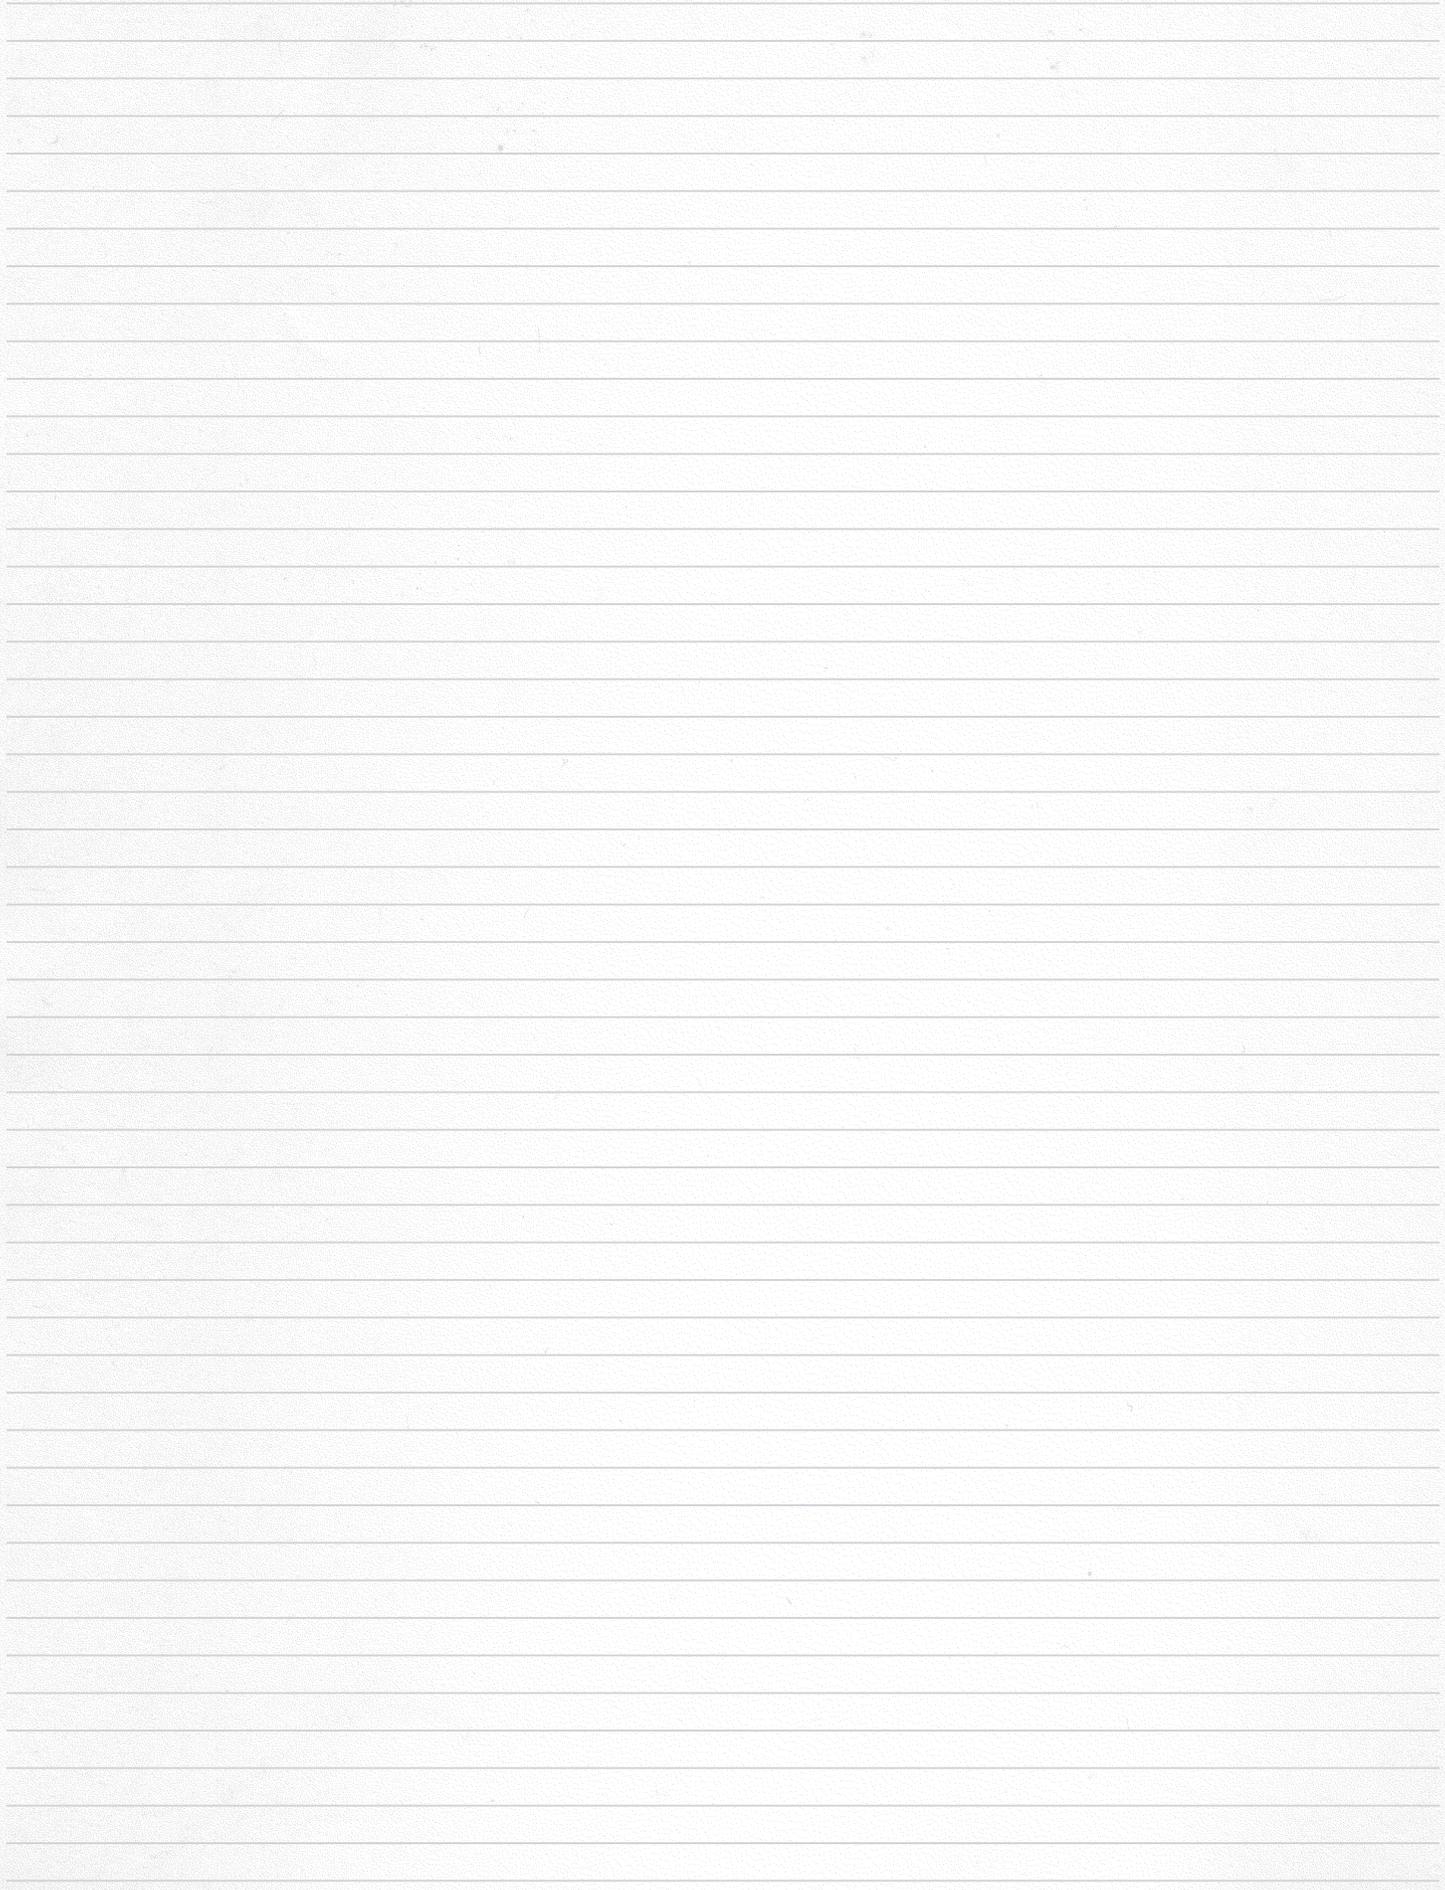

- 1.3 million site visits a year!
- 250k+ Social Reach (follow us @lineskis)
- 12 million+ video views

## 3. HIGH FIVES & SECRET HANDSHAKES!

- Traveling Circus drives 25000 miles to over 20 resorts!
- Globally influential athletes inspiring skiers everywhere!
- Established and awesome Sales & Distribution Globally!

NOTES ABOUT HOW LAME WE ARE  
**AWESOME**
