

[technical data]

Hysertia 139cm

Sidecut: 126-80-110 • **Standard Mounting Point:** 617mm • **Radius:** 14.79m

Who Would Ride It-

The faster you go the more hysterically happy you get. The only thing holding you back is your clothes flapping. You go early for virgin cord and when most people arrive, you've already had a full day's vert. Speed Range: 7-10

Features-

The most modern version of this ski is wider and at 80mm under foot it's rock solid, stable, grippy and even handles softer snow when you're in it. The 80%-20% Camber is designed for hard-snow, high-speed hookup. The Razor Cut sidecut gives this carving ski the best possible edge grip on the hardest snow.
